MHRD'S
INNOVATION CELL
(GOVERNMENT OF INDIA)

**INSTITUTION'S
INNOVATION COUNCIL**

INSTITUTION'S
INNOVATION
COUNCIL
(Ministry of HRD Initiative)

BLDE (Deemed to be University) from its inception is encouraging innovations, startups and entrepreneurship among students and faculty to strengthen the overall health of this part of Karnataka. Further, to nurture such activities BLDE (DU) established Institution's Innovation Council (IIC) in 2018 to follow MHRD initiative.

Major focus of this IIC is:

- to create a **vibrant local innovation/incubation ecosystem.**
- to inculcate spirit of innovation/ entrepreneurship and critical thinking among the students and promote avenues for display of these talents with the relevant details under the following options: (Extra Mural Funded TBIs (Technology Business Incubator)/ EDI(ECONOMIC DEVELOPMENT INCENTIVE FUND)/ Innovation Cell, Internally Funded Entrepreneurship/ Innovation Cell, Credit Course Work on Entrepreneurship/ Innovation - Self or jointly with external agencies, Audits self-study courses, Financial Support, Other support systems to nurture innovation & entrepreneurship.
- to encourage, inspire and nurture young students by supporting them to work with new ideas and transform them into prototypes while they are informative years.

Details of Innovations:

1. Sanitizer spray box using IR sensor

Innovators: Mrs. Anita Tippa and Dr. Surekha Hipparagi

Photo of the sanitizer box:

Problem definition:

- Now days we are facing problem from corona virus. From morning to night we are using our hand to touching nose, eye and mouth. So avoid to touching these things using this project.

Executive summary:

- The IR sensor having 3 pins, left pin of the IRsensor connected to the 1 k ohm resistor. Middle pin of the IR sensorconnected to the mini water pump (black colour wire. Right pin of the IR sensor connected to the USB cable.

- Resistor another end connected to the base of the transistor, collector of the transistor connected to the end of the mini water pump (red wire).
- Emitter of the transistor connected to the USB cable, another USB cable end connected to the water pump (black wire).
- Power will supply to this circuit, while connecting the data cable to the switch board then the circuit will operate. Fill the box with sanitizer then take hand in front of the IR sensor then the sensor will sense the object then we will get sanitizer through pipe (micro pipette tip).

Conclusion:

- Our conclusion, by this project we can control corona virus to spreading all over India.
- We can get alert from this disease. Avoid to touching the nose, mouth and eye.

2. Aerosol box

Intubation box in COVID19

Innovators: Dr Vijayakumar T Kalyanappagol, Mr. Ramesh Kumar, Mr. Girish B

Aerosol boxes have been promoted by multiple worldwide news organizations in print, television, online and across social media (see examples below) as not only a quick and simple solution to protecting frontline workers but also an example of private industries stepping up production to support frontline healthcare workers. However, these devices were produced outside the normal regulatory framework, and thus were never clinically tested or validated for effectiveness and safety. They were subsequently heavily promoted in the media and on social media. Yet despite this heavy promotion, no international guideline on personal protective equipment (PPE) has ever endorsed their use.

In recent months there have been increasing concerns from the medical community that these devices might be either not helping, or potentially exposing frontline medical staff to unforeseen harm, but as this could not be proven, the devices continued to be used across the globe. In this new study, Dr Vijayakumar T Kalyanappagol and Simpson and colleagues partnered with Ascent Vision Technologies, a Melbourne-based engineering company, to test the effectiveness of varying methods of aerosol containment, including the so-called aerosol box (see links to photos below), which various private companies have offered their services to manufacture.

Smt. Bangaramma Sajjan Campus, B. M. Patil Road (Sholapur Road), Vijayapura - 586103, Karnataka, India.

3. “CORONA WARRIOR SELF-ALERT FROM CORONA VIRUS” – PROJECT

Project submitted on 28th April 2020

Innovators: Dr. Surekha Hipparagi and Mrs. Anita Tippa

Objective: To avoid frequent touching of face in the event of COVID19 pandemic which is one of the ways the virus will transmit.

People touch their faces frequently. They wipe their eyes, scratch their noses, bite their nails and twirl their mustaches. Studies show that students, office workers, medical personnel and people on trains touch their faces between nine and 23 times per hour, on average. So to be alert or aware of touching face a small simple portable belt has been prepared which give buzzer when elbow joint angle reduces lesser than 90 degree centigrade.

- BY USING THESE PARTS WE CAN GET ALRET.

Report of the Co-Ultra Solution 20:

In the event of COVID19 pandemic, when antiviral drugs or vaccines are still evolving environmental transmission can be reduced through social distancing & taking personal protective measures. STAY HOME STAY SAFE is a popular dictum for the public at this situation but health care workers are working day & night in the hospital. It is equally important to take care of personal safety of health care workers & their family from the infectious disease.

The equipment named as "Co-Ultra Solution 20" is a portable multipurpose machine build by a team of Institutions Innovation council of BLDE (Deemed to be University) Shri B .M. Patil Medical college, Hospital & Research Centre in collaboration with VP Dr. P.G. Halakatti College of Engineering & Technology and Krishi Taranga Farm tech Vijayapura.

Dr Surekha Kalyanappagol, Mr. Girish Badragond, Dr Jayalaxmi Gonal & Dr Smita Mangalagi the team members said that Centre for Disease Control & prevention has published many articles on effectiveness of ultraviolet rays & mentioned that most of the bacteria & viruses including Corona Viruses are either killed or inactivated.

So this equipment is prepared, based on Ultra violet rays technology as disinfectant mode as it is very important to disinfect high touch surface items like Stethoscope BP apparatus, currency, hospital documents, pens key chains, purses, foot wares, mobiles covers, laptops, & even reusable masks & caps etc. of person who is working in highly infectious areas like hospitals, otherwise there is a high chances of taking these microorganisms to home.

This equipment can be also used for sanitizing household items like milk packets chips packets, vegetables etc. One more uniqueness of this equipment is it is fitted with sensor & it opens and closes automatically when any person stands in front of it, which gives extra protection against transmission of microorganisms through surface contact.

Equipment is validated by Department of Microbiology Shri. B.M.Patil Medical College, Hospital & Research Centre & they endorsed that within quick time (3-5 minutes) items

Smt. Bangaramma Sajjan Campus, B. M. Patil Road (Sholapur Road), Vijayapura - 586103, Karnataka, India.

SHRI B. M. PATIL MEDICAL COLLEGE, HOSPITAL & RESEARCH CENTRE, VIJAYAPURA will be sanitized. Team members cautioned that this equipment is not designed for skin surfaces as UV rays can cause skin irritation. Honorable Chancellor BLDE (DU) Dr M B Patil MLA Babaleshwar, former Home minister & Minister of water resources appreciated the efforts of team members and advised to bring many more innovative solutions like this which is needed to tackle the life time challenging diseases like COVID19.

Honorable Vice chancellor Dr M.S. Biradar, Principal Dr Aravind Patil & Medical Superintendent Dr Vijay Kumar Kalyanappagol, BLDE (DU) Shri. B.M.Patil Medical College, Hospital&RC, Dr. Atul B. Ayare Principal, Dr Pradeep Malaji Vice Principal -VP Dr. P.G. Halakatti College of Engineering & Technology, Vijayapura congratulated the team & said that this novel idea of preparing a portable box using ultra violet radiation with local material can be used as disinfectant equipment for high touch surface items at the hospital entrance /exit & at houses as all the personal items of anyone entering to & exiting from hospital /house will go through sanitizer check .

5. IDEA NAME: Easy Peezy

Team Name: RAPTORS-1

Team Leader Name: Mr. S Rahul, Baishali Chakraborty, Druv Kullolli, Manvi

Choudhary, saloni Verma, Yukti Gujarathi

The idea is to collaborate all the toilets in restaurants between two places and give rating to them via an app. User friendly interface which provides location of the restroom on smart phone screen.

Pay a small token and use the restroom just like public restroom but a better and clean one. The user can give rating to the toilet which will make the next user easier to choose a toilet of their comfort based on the ratings.

12. QR-enabled Museum-In Your Pocket

Innovative Teaching methods

Innovators: Dr. Kapse Sachin Shivaji, Dr. Anil Reddy Konduru , Dr. Yelikar Balasaheb, Dr. R. Potekar Ratnakar M.

Objectives: To integrate and utilize technology to improve understanding of Pathology.

The Specimens were QR enabled using a free software and student has to download a free QR Code reader application in his/her mobile available across all the renowned mobile operating systems

Innovative way to Learn Pathology

QUICK RESPONSE CODE – HOW TO USE IT?

All the SPECIMEN DESCRIPTIONS and DIAGNOSIS have been tagged with Quick Response (QR) code.

Dr Anil Reddy

Step 1:
Download and install free Barcode scanner/QR code scanner app in your mobile.

Google Play store®

Apple App store®

Microsoft Windows store®

Step 2: Open the app

Once the code is read by the app, description is displayed in the app.

Advantages:

- Easy to get specimen information.
- Ability to store the information in your mobile.
- Do it yourself and self study.

14. DIY - Slide Digitisation Published in PubMed Indexed Journal

Innovators: Dr. Anil Reddy, Dr. Himanshu Mulay

Objective: To digitalization of microscopy pathology

The DIY slide digitizer system was installed, and the requisite software was activated on 22-05-2019. After an initial trial run, the system is in regular use and digital slides creation process has started from the slide collection of the department which is an ongoing process. The demonstration of the system and the workflow was explained to Honorable Principal on 28th May.

Mobile whole slide imaging with Indian twist

Editor,

Microscopic observation of the tissues has come a long way from the time of Anton van Leeuwenhoek to today's sophisticated techniques. The humble glass slide has withstood the test of time and is relevant and used even today. These slides are being digitized world over with various companies offering a wide range of whole slide imaging (WSI) digitizers.

Even though the advantages are many, these WSI scanners are not being widely used due to their prohibitive cost of acquisition ranging from about \$73,000 to \$12,5000 for single slide to twenty slide loader, respectively. In addition, digital storage and maintenance costs increase the cost further.

Mobile WSI (mWSI), with the increasing processing capacity, pixels in the camera and slimmer designs mobile altogether has become a very powerful digital tool.

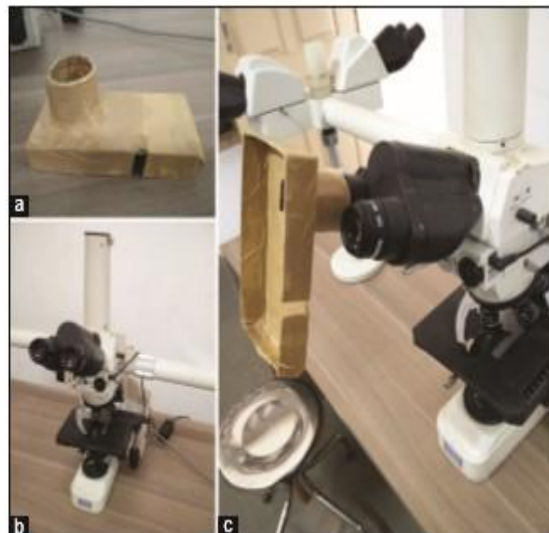

Figure 1: (a) Mobile phone mount made of the cardboard. (b) Nikon microscope. (c) Mount attached to the eye-piece of microscope

The images acquisition process took about 15–30 min in the $\times 400$ magnification and 10–15 min in cases of $\times 100$ and $\times 200$ magnification, respectively. We also used the same process to acquire the image in $\times 1000$ oil immersion objective.

2 Pediatric Dermatology 2017

Figure 1. The basic materials required for making the cooling jacket: (A) a thin cotton shirt, (B) a piece of waterproof material.

Figure 2. (A) The waterproof material stitched on the inside of the front flaps of the shirt. (B) A pocket for the gel icepack.

She was the third child of consanguineous parents. The first two children had similar symptoms and had died before 2 years of age without a definite diagnosis. We aimed to provide symptomatic relief to the child for heat intolerance. India is a tropical country and the northern part of Karnataka state in south India, where the child resided, is mostly warm and arid. The hot climate added to the child's discomfort. The family was poor and could not afford an air cooler or air conditioner at home.

We prepared a specially designed cooling jacket from easily available materials using a thin cotton shirt of the child's size (Fig. 1A), a piece of waterproof material from the hood of a used waterproof jacket (Fig. 1B), four gel icepacks (Chillit, Navagen Products, Bangalore, India; normally used for maintaining cold in the National Vaccination Program), scissors, sewing materials and Velcro strips.

Four simple steps were followed to make the cooling jacket. The waterproof sheet was cut to the

Inamadar et al: Pediatric Dermatology Procedures and Pearls 3

Figure 3. The cooling jacket is ready to wear.

size of the front flaps of the cotton shirt. The cut waterproof sheets were stitched to the inner aspect of the front flaps of the cotton shirt to form an inner lining (Fig. 2A). Four pockets the size of the gel icepacks were made using the same material and fixed to the inner lining using Velcro strips (one each in the upper and lower quadrants on each side) (Fig. 2B). The gel icepacks were frozen for 48 hours (according to the instructions on the product pack). The frozen gel icepacks were placed in the pockets and it was ready to wear (Fig. 3).

The mother was instructed to put the jacket on the child at midday when she was at the height of discomfort. The child was kept hospitalized to observe any change in her behavior. With the jacket, the child was in a happy and playful mood and often slept soundly. During monthly follow-ups for 8 months, the mother reported that regular use of the cooling jacket at midday and on warm nights has helped the child to sleep soundly and she was calm and playful during the day. As we observed, the child did not appear perturbed with the weight of the frozen gelpacks and was able to move around comfortably. Her growth parameters were adequate for her age.

Because cost was an obstacle to obtaining commercially available cooling vests or air-cooling devices, this low-cost cooling jacket was devised using

easily available, cheap materials. The advantage of using gel icepacks over ice cubes is that they remain frozen at room temperature for approximately 4 to 5 hours (5). However, this is a short-term measure and requires refreezing of the icepacks, thus multiple pairs of icepacks may be necessary for one child. We expect that this cooling jacket would be of help to children with ectodermal dysplasias in resource-poor situations.

INSTITUTION HAS BEEN SELECTED UNDER NAIN SCHEME

NAIN scheme conducted on 4th March 2020

The NAIN (New Age Incubation) scheme under implementation in engineering colleges will be expanded to all professional and post-graduate institutions in two-tier cities in a phased manner. At academic institutions shall be covered under this program during the Policy Period. The selected academic institutions would be assisted to establish an incubator in the given discipline and encourage student projects. All such incubators would be networked and connected to a common portal to facilitate exchange of thoughts, ideas and collaboration across institutions and disciplines. All selected institutions would be graded on the basis of Key performance indicators. Financial assessment will be provided for three years to the selected institutions for setting up the incubator and other activities. Institutions that excel would be further supported for another two years.

Each NAIN institution will be assisted as follows:

1. Grants for supporting operational expenses in their incubator e.g. Salaries of Regional Coordinators, mentoring programs, networking meetings, conducting Hackathon etc.
2. Annual Financial support for projects for upto Rs. 3 lakhs per project
3. Training and Capacity Building for Faculty and students
4. Exposure to Support and Network Programs conducted by the departments concerned
5. Opportunity to visit international startup destinations.

**MAIL INFORMATION AND CONFIRMATION FROM KITS GOVERNMENT
REGARDING NAIN ESTABLISHMENT:**

Greetings from KITS, Government of Karnataka!

This is with reference to your application for the establishment of NAIN [New Age Innovation Network] center in your Institution.

We are pleased to inform you that your institution has been shortlisted for Selection process of NAIN. In this regard you are requested to attend the selection meeting to held as per the details provided below -

Date: 15/02/2020
Time: [02:30 PM](#)
Venue: Conference Hall, 6th Floor, 5th Stage, M.S. Building, Dr. Ambedkar Veedhi, Bangalore - 560 001.

You are requested to produce the original documents supporting the application enclosures and prepare a 5 minutes power point presentation. The college will be assessed based on the following parameters -

1. Strength of Institution - Diversity of Departments
2. Strength of Team - Capability of Coordinator
3. Institutional Preparedness - Readiness of space allotted to NAIN
4. Understating of Startup Ecosystem - Previous Activities in Incubation
5. Local Industry Mentors & Alumni Connect
6. Sustainability of the NAIN post funding support

Note: Kindly report to the [venue at 1.30 PM](#) on 15th Feb 2020 for document verification.

Regards,

Prashant Kumar Mishra, IAS
Director - IT & BT and MD - KITS

Incubation network

Vijayapura: BLDE (deemed-to-be) University has been selected to establish New Age Incubation Network (NAIN) Centre by IT&BT and MD-Karnataka Innovation and Technology Society (KITS) from 2020. The objective of NAIN programme is to encourage students, research scholars and alumni to share their ideas to solve local problems and to validate, refine and nurture ideas. The centre shall also provide an eco-system to convert ideas and upgrade them to a level of commercial value. After successful incubation, the institute will encourage and lead the teams towards setting up business enterprises. TNN

Activities conducted by IIC:

1) Meeting conducted in IIC

Meeting of IIC was conducted on 9th October 2019

Objectives: Discussed about calendar of events as defined by MHRD IIC.

- Principal Sir requested all the members to take active participation in the IIC and to be innovative in all the activities.
- Principal Sir also said that the circular and agenda of the meeting should be sent to concerned department of students for allowing them to attend meetings
- Principal Sir also said to form email and website of IIC by requesting IT department of BLDE(DU) and updating all information about IIC.
- It was also discussed that 15th October shall be celebrated as INNOVATIVE DAY (as per MHRD declaration)

in a need like online patient registration, online OPD registration, innovations on equipment's
etc.

Dr. Aravind Patil Principal Dean Faculty of Medicine, President IIC expressed his happiness
and said that all the students & faculty are very passionate about doing thing innovatively and

Promised that institute will support all the ways for any new ideas and we will have Innovation
Centre with all the facility working for 24x7, so young innovators can come and work any time.
He inspired the students to go for entrepreneurship, to work for social challenges and to work
for support of farmers. He also said that Nobel prize winners always do they do not different
things but do the things differently. If you are consistent and focused no doubt our institute will
have the Nobel Prize in a near future.

Dr. Jyoti Kodnapur Briefed about the boot camp and it was launched by the dignitaries on the
dais, and also declared the boot camp dates on 5th and 6th Nov2019. Dr. G A Hadimani
expressed the vote of thanks.

Followed by Inauguration of Innovative day IIC had organized competition for Innovative Idea.
Totally 19 groups participated in the programs.

Judges of the competition were

01) Dr Surekha B Hippargi: Professor Pathology Vice president IIC

02) Dr A. G Akamanchi

Best three groups were selected for the awards & announced that awards will be declared on
Boot camp probable on 6th Nov 2019.

It was a great event on Innovation day & was celebrated for the first time in the history of Shri
B. M Patil Medical College Vijayapura.

We are very much thankful for giving us an opportunity to conduct such wonderful event.

06) SIMULCON

Simulcon was conducting on 13th & 14th December 2019 at Andhra Pradesh

Objectives: SIMULCON India 2019 was the 1st national & international conference on health care simulation with respective health care in India at the Cultural capital of Andhra Pradesh Rajahmundry between 13th & 14th December 2019.

It was focused on topics of simulation in relation to health care and its importance in medical education, competency acquisition and skills training. The two day meet was emphasize of faculty development, hands on learning, multi rolling exposure of virtual reality simulation and many other in the field of health care simulation.

Simulcon India 2019 1st national conference report:

With reference to the subject mentioned and letter cited above, I Dr. Gavishiddappa A. Hadimani has been deputed to attend SIMULCON India 2019 1st National conference and Workshop on health care simulation with respective health care in India at the Cultural capital of Andhra Pradesh Rajahmundry between 13th & 14th December 2019. It was focused on topics of simulation in relation to health care and its importance in medical education, competency acquisition and skills training. The two day meet was emphasize of faculty development, hands on learning, multi rolling exposure of virtual reality simulation and many other in the field of health care simulation.

It was great event to bring managements, administrators, equipment manufacturers / suppliers and experts in simulation on a common platform to design, equip and create a blueprint for simulation laboratory in a medical college. This conference will help to develop curriculum for training the trainers in simulation laboratory, to develop skill training program in simulation laboratory for healthcare personnel and integrate it with UG and PG medical curriculum, to develop a blueprint for academically and financially viable training programs in clinical skills.

09) INTERNAL HACKATHON

Internal Hackathon was conducting on 7th February 2020.

Objective: To short list the teams for SMART INDIA HACKTHON In SIH2020, the students would have the opportunity to work on challenges faced within various Ministries, Departments, Industries, PSUs and NGOs to create world class solutions for some of the top organizations including industries in the world, thus helping the Private sector hire the best minds from across the nation.

In the view of above, an Internal Hackathon competition has been organized by Institution's Innovation Council (IIC). Top 7 teams from the Internal Hackathon were nominated for SIH 2020. In the view of above, an internal Hackathon competition was organized by Institution's Innovation Cell (IIC) to nominate teams for SIH 2020.

Targeted group: UG & PG students

Date: 7th February 2020, 4 PM onwards

Venue: Academic council hall, University building

Internal Hackathon Report:

Total 9 teams each team comprising of 6 members participated in the Internal Hackathon. Out of 9 teams, 5 teams participated for software edition and 4 teams participated for hardware edition.

Each team addressed one problem statement and made a power point presentation of the idea for 4+1 minutes in the given format.

10) SMART INDIA HACKTHON:

National Innovation Contest Idea Submission (SIH 2020) conducted on 8th February 2020.

Totally six Ideas were submitted. In hardware & software category & BLDE (DU) team was shortlisted –Easy Peezy.

Ministry/Organization Name: AICTE/MIC

Problem Statement: Student Innovation (software, IC466)

Team Name: RAPTORS-1

Team Leader Name: S Rahul

College Code: U-0214

IDEA NAME: Easy Peezy

The idea is to collaborate all the toilets in restaurants between two places and give rating to them via an app. User friendly interface which provides location of the restroom on smart phone screen.

Pay a small token and use the restroom just like public restroom but a better and clean one. The user can give rating to the toilet which will make the next user easier to choose a toilet of their comfort based on the ratings.

11) IIC INNOVATION AMBASSADOR TRAINING SERIES

Innovation Ambassador Training Conducted on 26-27 February 2020 Bangalore ACS College of Engineering

IIC innovation ambassador training series

1. Design thinking & Innovations
2. IPR & Technology Transfer
3. Entrepreneurship Development Program
4. Pre- Incubations & Incubation Management

We the following members of IIC BLDEDU, Dr. S S Kalyanshetkar, Dr. Gavishiddappa A. Hadimani, Dr. Ishwar Bagoji & Dr. Vikram Sindagikar were deputed to attend INNOVATION AMBASSADOR TRAINING PROGRAM (With respect to the training series) which was organized by the ACS College of Engineering, Bangalore in collaboration with AICTE / MHRD's INNOVATION CELL (SWRO) on 26&27 February 2020.

Following were the topics discussed in each session:

Session 1: Design & thinking

Awareness- Self Holistic by Mrs. PrajaktaKulkarni

Curiosity through empathy by Mrs. PrajaktaKulkarni

Research Methods by Mrs. PrajaktaKulkarni& Mrs. Shradha Mishra

Prioritization & Interconnections by Mr. SanketInamdar& Mrs. Shradha Mishra

Smt. Bangaramma Sajjan Campus, B. M. Patil Road (Sholapur Road), Vijayapura - 586103, Karnataka, India.

Session 2: IPR and Technology transfer

Introduction to IP & Types of IPRs by Mr. VivekAnandSagar IP attorney

Copyright & related write by Mr. VivekAnandSagar IP attorney

Innovation & Patents by Dr. SarasijaPadmanabhan Patent attorney

Technology transfer, entrepreneurship & IP by Dr. SarasijaPadmanabhan Patent attorney

Branding & Trade marks by Mr. Kodandaram MG IRS retired

IPR & Cyber interface by Mr. Kodandaram MG IRS retired

Geographical indications Mr. Nagarjun

Industrial Design Mrs. Ekta Prasad Patent Agent

Session 3: Entrepreneurship development program

Concepts & elements of entrepreneurship by Dr. Lalit Sharma

Enabling youth entrepreneurship through Innovation Dr. Lalit Sharma

Entrepreneurship ecosystem in the country Dr. Lalit Sharma

Idea to enterprise creation by Prof KoppadaKiran

Entrepreneurship Competency development Prof KoppadaKiran

Business Model creation Prof KoppadaKiran

Social Media entrepreneurship Prof KoppadaKiran

Session 4: Pre Incubation & Incubation Management

Planning an Incubation by Mr. Rakesh Mishra

Setting up education programs Mr. Rakesh Mishra

Funding an incubator Mr. Rakesh Mishra

Setting up a mentoring program Mr. Rakesh Mishra

Types of Infrastructure & facilities required Mrs. PriyankaMukharjee

Promoting an incubator Mrs. PriyankaMukharjee

Handling finance of the incubator Mr. Muttu

Hiring people for Incubation & administration Mr. Muttu

Smt. Bangaramma Sajjan Campus, B. M. Patil Road (Sholapur Road), Vijayapura - 586103, Karnataka, India.

**MHRD'S
INNOVATION CELL**
(GOVERNMENT OF INDIA)

**INSTITUTION'S
INNOVATION
COUNCIL**
(Sponsored by MHRD Initiative)

IIC INNOVATION AMBASSADOR TRAINING SERIES
Feb 26th and 27th, 2020

MHRD's Innovation Cell Invites Institutes in Karnataka & Kerala to nominate their faculty members to participate in two-day Innovation Ambassador Training Program being conducted for IICs in SWRO Zone.

HOSTED BY
ACS COLLEGE OF ENGINEERING, BENGALURU

Role of IIC's Innovation Ambassador

- Perform the role of mentor in their respective IICs.
- Provide support to other IICs as resource person.
- Spread the message of innovation & start-up among the students and faculties.

Who can participate?

- IICs upgraded/completed their council formation as per the provisions of IIC2.0
- IIC Faculty/Staff member nominated by IIC.
- Faculties flexible and volunteer to offer service.
- Preference should be given to the faculty members with prior experience in Entrepreneurship and Innovation.

How to apply?

- Login in IIC Portal
- Click on Innovation ambassador menu
- Nominate one member for each training program.
- Faculties from Non- IIC Institutes can also participate. They will require to do SPOT REGISTRATION at training venue.

**TRAINING
THEMES**

Design thinking & Innovations

IPR & Technology Transfer

Entrepreneurship Development Program

Pre- Incubations & Incubation Management

Consortium Institutions

RajaRajeswari College of Engineering, Bengaluru
RajaRajeswari Medical College & Hospital, Bengaluru
RajaRajeswari Business Incubator, Bengaluru

Non Registered IIC Institutions to participate please contact:

DR. RAMANAN G. PH: 9965418124
DR. AMUTHARAJ. PH: 9742738238
DR. VINOTH G. PH: 7708605247

IIC Registered institutions should follow the IIC portal procedures to nominate the participants.

12) NATIONAL SCIENCE DAY

National science day conducted on 3rd March 2020

Objectives: On the occasion of National Science Day 28th February 2020 IIC of BLDE (DU) is organizing various events in the loving memory of creative mind par excellence Sir Chandrasekhar Venkata Raman, famously known as Sir C V Raman The day is known for one of the greatest Innovation and scientific achievement of India, Raman Effect, discovered by Sir CV Raman, who won the Nobel Prize in 1930.

Together we can achieve and strengthen the vision of Sir C V Raman for better, creative and an Innovative India. To celebrate this day, we appeal and Invite Institute faculty members and students by organizing the below-mentioned activities.

Competitions for the students:

- Slogan competitions

Theme: path-breaking Innovations /scientific achievements from India for humankind.

- Essay writing competitions

Theme: on path-breaking Innovations /scientific achievements from India for humankind.

- Create a short audio/ video song
- Innovative Notice Board (Size 3x4) preparation competition, Use of recycled materials

Theme(Waste to wealth).

Rescheduling of IIC Online Sessions Series: Participate in IIC e-Activities from 28th April to 22nd May 2020
3 messages

Pankaj Pandey <pankajpandey@eicte-india.org> Sun, Apr 26, 2020 at 9:53 PM
Bcc: bmpmc.principal@bldedu.ac.in

Dear Sir/ Madam,

Greetings from the Institution's Innovation Council, M IIRD's Innovation Cell !

As you may be aware that the first e-session on NISP, scheduled on 21st April was cancelled due to a technical error. We have rescheduled all 15 e-sessions and postponed them by a week. These sessions will now be telecasted on MIC Youtube Channel (<https://www.youtube.com/mhrdinnovationcel>) from **28th April** Onwards at 3.00 PM. For detailed schedule plan, speaker details, and links to join the e-sessions. You can visit the IIC portal at : <https://mic.gov.in/icwebinar.php>

Post session , participants can download the PPT and will be required to submit the **e-assessment form within 4 working days** from the date of conduct of that particular e-session to **get an e-participation certificate** (will be issued by end of IIC Calendar Year 2019-20 i.e June 2020).

The first e-session (MIC Driven) is scheduled on 28th April 2020 at 3.00 PM and will focus on "National Innovation and Startup Policy (NISP) for Students and Faculties in Higher Educational Institutions (HEIs)" by Shri Dipan Sahu, Asst. Innovation Director, MHRD's Innovation Cell, and National Coordinator of NISP, ARIIA, and IIC.

We highly appreciate the efforts taken by you to make the IIC Network a glowing success model of establishing, streamlining and strengthening the Innovation and entrepreneurship ecosystem in campuses of more than 1800 HEIs through a decentralized approach. During this time of distress, its need of the hour to move forward with innovation and entrepreneurial approach, especially when we are a quarter away from completing our IIC2.0 Calendar year.

All these e-sessions focus on various themes of Innovation, IPR, and Entrepreneurship, and Startup, and these e-sessions as e-activities will replace the physical activities of Q3 and Q4 for the IIC calendar year 2019-20. It is to note that, because of this prolonged lockdown now both quarter 3 and 4 are merged together and whole semester will be one period for all the remaining Q3 & Q4 activities.

IIC Institutes are requested to disseminate the information regarding e-sessions among students, faculties and staff to participate for their benefit. Moreover, IIC-Institutes may keep a record of participants (Students and faculties and staff) for each session, and session wise consolidated reports can be uploaded (by 31st of May 2020) in the IIC portal, which will be considered for Annual Score calculation (Out of 100) and star allocation (Out of Five).

Please find the basic information regarding e-sessions and participation guidelines are as below.

- No Prior Registration is required to attend the e-sessions and you can use your smartphone and laptop/desktop.
- The time slot for the e-sessions are 3.00 PM to 4.00 PM (except Saturday and Sunday) from **28th April 2020 onwards, except Saturdays and Sundays.**
- Enrollment is Free.
- **No Maximum limit on Participants, anybody can join the session on YouTube.**
- Faculties, Students and non-teaching staff can join the e-sessions.
- Link for the e-Assessment will be available in the e-session page/description box and on submission of the same **within 4 working days from the conduct of the e-session**, participants will receive participation certificate by the end of June 2020.
- All these e-activities are scheduled as either **IIC Calendar or MIC Driven Activities** and will be assessed towards the final score and star allocation.
- Please note that due to prolonged lockdown period, now **Q3 and Q4 are merged together.**

Please circulate the information among students, faculties, and staff and encourage them to participate in the e-sessions.

Looking forward to your participation through WEBEX platform from Tuesday (at 3.00 PM on 21st April 2020)

Find the tentative attached e-session schedule plan.

VJCONSTRUCTION MULTIPLE CHOICE QUESTIONS AS A
TEACHING/LEARNING TOOL INNOVATIONS IN MEDICAL EDUCATION
CONFERENCE –KECK SCHOOL USC LOS ANGELES CALIFORNIA USA-PAPER
ACCEPTED & APPRECIATED

Saturday, 2/15/2020, 11:30 am - 1 pm Saturday Poster Session, Poster #096

Constructing Multiple Choice Questions as Teaching/Learning Tool.
Hippargi, Surekha
Shri B.M. Patil Medical College Hospital & Research Centre of BLDE (Deemed to be University)

Problem Statement: Traditional method bypasses the active processing of the material & appear monotonous, so there is a lack of student involvement in learning process.

Rationale: In the conventional method, there is a lack of student involvement in the learning process & may not lead learning to occur at many levels, from simple recall to problem-solving, thus the purpose is defeated. Innovations in teaching /learning methods in education enhance both teachers and learners motivation, makes student to get involved actively in the process of constructing multiple-choice questions & thus enhances the understanding of the topic.

Methods: Type of study: Prospective study. Study group: Medical undergraduate students of Pathology at BLDE(DU) Shri B M Patil Medical College, Hospital & Research Centre, Vijayapura. Sample size: 35 + 5 students. Sampling method: Purposive sampling. Inclusion criteria: All the students of II phase I term (III term) who is willing to participate in the study. Exclusion criteria: Students who have already read the topics before the intervention of the program. Plan of statistic analysis: Diagramatic presentation to know the efficacy of interventon. Ethical committee clearance obtained. 72 Students were voluntarily selected Consent was taken by students. Students underwent orientation program for construction of multiple choice questions before intervention. Students were divided in to two groups. (A&B) Vascular events & Cellular events of acute inflammation were chosen as topics. Group A- Constructed MCQ on Vascular events (30 minutes) Group B- Went through conventional class (30 minutes). For Cellular events, crossing over was done (30 minutes each group). Feedback from students was also taken to know the effectiveness of program.

Results: Responses to feedback questionnaire was taken about understanding of the topic, student involvement in learning following Likert scale format. Two groups were compared & the means and SD of each groups were documented. A p value ≤ 0.05 considered as statistically significant. 87% of students said they enjoyed the session & understanding of the topic was enhanced by this learning tool- mean(3.83 ± 0.38) . There were significant differences in the mean score and SD for understanding of the topic (p=0.04)

Potential Impact: Constructing multiple choice question enhances the understanding of the topic, may be used for other topics thus overall understanding of the subject will be better.

Bcc: bmpmc.principal@bldedu.ac.in

Dear Sir/ Madam,

Greetings from MHRD's Innovation Cell (MIC) and AICTE. Hope you are keeping safe.

This is in reference to the senior faculty nominations invited by MHRD's Innovation Cell from the HEIs, for implementation of National Innovation and Startup Policy (NISP) at the education institutes.

We confirm receiving the details of nominated faculty from your institute/ in your name. However, the nomination/ approval letter has not been received or the wrong letter/ incomplete document was found uploaded. **List of incomplete nominations is attached herewith.**

Approval/ nomination letter from head of institute/ competent authority need to be sent at startup@aicte-india.org latest by 27 July, 2020. Please mention AISHE code while communicating the same.

A series of online/ offline orientation and training sessions related to adoption, implementation, monitoring and evaluation of NISP implementation are scheduled under the program which will be initiated from August onwards.

In case approval/ nomination letters are not received within the stipulated time, the nominated faculty will not be considered for the forthcoming training sessions scheduled under the program in phase-I or any further related communication.

In case of any query, feel free to write back to us.

Thanks & regards

National Innovation and Startup Policy (NISP) Implementation Team

1-1/IC/NISP Comm/2019-20/10
1st November, 2020

To
Vice-Chancellor/ Head of Institution

Subject: Inviting nomination of one senior faculty from higher education institutes in 2nd phase for the implementation of 'National Innovation and Startup Policy' for student and faculty in HEIs (NISP)- Reg.

Dear Sir/ Madam,

As a part of NISP campaign, 2nd phase invitations of faculty nominations are open. I request all higher education institutes to nominate one senior faculty for NISP implementation at your institute/ university in current academic year. The faculty will be responsible for coordinating NISP implementation related activities in your institute.

In case the institute has already nominated a faculty in phase-I, no fresh nomination is required.

Nominations can be submitted at
mic.gov.in/start-up-policy/nominate-faculty-for-nisp

The nominated faculty should have understanding and experience in innovation/ intellectual property Rights/ Entrepreneurship/ Startups.

Last date for submission of 2nd phase nominations: 15 November, 2020
Online training programs for nominated faculty: January- February, 2021

Ministry of Education is keen on ensuring adoption of NISP by all the HEIs in a time bound manner. We are happy to share that large number of Higher Education Institutes (HEIs) have already nominated the faculty in 1st phase of nominations and have also started implementing the policy within their campus.

Following the nominations, faculty will get the opportunity to participate in orientation, skill development training sessions conducted by Innovation cell of Ministry of Education and AICTE. These activities/ sessions would address various aspects related to vision building exercise; logic modeling for policy development; policy implementation approaches; monitoring and impact evaluation methodologies/ tools; program management techniques; writing policy case studies, etc.

List of faculty nominated already by HEIs during phase-I invitation is available at
www.mic.gov.in/assets/doc/NISPNominatedFaculty_28072020_forwebsite.pdf

In case you haven't joined NISP campaign yet, join at mic.gov.in/start-up-policy/startup-application

Read about NISP at www.mic.gov.in/assets/doc/startup-policy_2019.pdf

For any query related to NISP implementation, write to us at startup@aicte-india.org.

Thanks & regards,

(Abhay Jere)

Adoption of National Innovation and Start-up Policy (NISP) at HEI Level

Action Items for September- November 2020

Nominated faculty are required to coordinate with the head of their institute and the committee constituted for the purpose, for completion of below mentioned action items by 15th Nov. 2020.

SN	Tasks/Assignments to Accomplish	Expected Output of the Assignment	Progress Status (Completed/ Under Progress/ Yet to be Initiated)
1.	Identification of experts (balanced mix of experts from within HEI and regional & national eco-system comprising alumni entrepreneurs, start-ups founders, incubation and pre-incubation units, representatives from I&E ecosystem enablers) to become part of the Innovation and Start-up Policy Formulation Committee at Institute level.	Ideally 7 to 11 experts to be identified	
2.	Constitute a committee for formulating Innovation and Start-up Policy at Institute level with NISP coordinator as convener of the committee.	Committee Formation and scheduling the meetings	
3.	Conduct the first brainstorm session with experts of committee to identify and list the policy level issues, strength areas, weak areas, opportunities, and threats (SWOT) of I&E ecosystem at HEI level taking all major stakeholders into account and prioritize these issues (develop the problem tree as explained during the first training session).	Identify the list of policy gaps and issues which need interventions/actions through policy/guideline formation	
4.	Conduct the second brainstorming session with experts of committee to deliberate upon the policy issues identified and prioritized during the first meeting and develop solution framework with action points/ thrust areas (develop the objective tree or policy logics as explained during the first training session) and also set Key Performance Indicators -KPIs to become part of monitoring & evaluation of I&E policy.	Formulate and list set of action points (categorise into long term, mid-term and short term actions points and classify based on resource consumption and time in months or years required to accomplish) along with KPIs to monitor and evaluate the progress.	
5.	Validate the policy issues identified and listed through the above exercises by interacting with key stakeholders such as student innovators, entrepreneurs, incubation units existing in the	Stakeholders analysis, validation of action items, and

	campus or in vicinity and develop a consensus on the action points planned for the intervention. Accordingly, conduct the survey or other technique, develop the base line for the Key Performance Indicators (KPIs) as starting point of I&E policy.	base line survey of KPIs	
6.	Develop the action plan with clearly defined, vision/mission/goal and objectives to achieve in next 3 year or 5-year with set of activities/programs that you plan to conduct and the KPIs to measure it, the baseline value and fix realistic target for 3 or 5 year to achieve, annual targets, biannual milestones for each KPIs identified. (above can be prepared in Gantt chart).	Develop the Gantt chart with list of program/ activities (long term, mid-term and short term) and timeline, KPIs, the base value and targets for each KPIs	
7.	Drafting of I&E Policy document- While drafting all necessary care should be taken care to avoid copy and pasting and all the action items are designed & planned should follow the SMART principle (Specific, Measureable, Achievable, Realistic, and Timeline). Clarity should be there for resource mobilization strategy for each program/activity planned and adequate emphasis should be given for Monitoring & Evaluation with proper strategy. HEI may provision and plan for new schemes and programs if required. HEI should explore different avenues of resource mobilization and strategies.	1 st Draft of I&E Policy and Review of the draft.	
8.	Preparation of the final draft of I&E policy document, endorsement from committee & due diligence, vetting/ approval by board of studies (or) concerned competent authority before implementation.	Final draft and approval by board of studies	
9.	Resource allocation for implementation with Implementation team formation, deployment and implementation of the I&E Policy with clarity in roles and reasonability.	Resource allocation and Team deployment	
10	Institute may plan to organize orientation session for stakeholders such as students, staff and faculties with active involvement of top leaders of HEI.	Orientation Session for Stakeholders	
11	Public access of information: Use of Social media, website, portal and other mode to reach out to stakeholders on regular basis. HEI is advised to place the I&E documents and programs and announcements regarding upcoming activities and achievements related to innovation,	Development of webpage and use of social media Tag MHRD's Innovation Cell and AICTE, Ministry of
