The carousel slide features a large gold star on the left and a large gold trophy on the right. The central content is divided into two columns. The left column displays a framed certificate and a photograph of an award ceremony. The right column contains two text-based news items, each accompanied by a small photograph of an event. The bottom of the slide shows a Windows taskbar with the search bar and various application icons.

**Left Column:**

**Top:** A framed certificate with the BLDE logo and text in Kannada.

**Bottom:** A photograph of a group of people on a stage during an award ceremony.

**Right Column:**

**Top:** Text describing an award received by the Department of Architecture at the level of "Best Institute Award" for the Excellence in the Department of Architecture and Student Union Program held at Mysore on 12/11/2019.

**Middle:** A photograph of a group of people on a stage.

**Bottom:** Text describing an award received by the Department of Physics named "SIBM, BANGALORE & IITM 2019" organized by High School Pathology and the District Institute of Education and Training Program, held at IITM, Mysore, on 25/11/2019. The award was given to the students of the Department of Physics.

**UTILIZATION OF OPEN SOURCE TECHNOLOGY TO CREATE COST EFFECTIVE PORTABLE CAMERA SYSTEMS IN TEACHING**  
 Dr. Anand Kalyan (Ph.D.) Department of Fisheries

Technology is the backbone of Modern world. Education is the key to the growth of a nation. The government is providing various facilities to the students and faculty members. The utilization of open source technology in teaching is a revolutionary step. The Department of Fisheries, BLDE has developed a portable camera system using open source technology. This system is used for recording the activities of the fish in the water. The system is easy to use and does not require any special skills. The system is also very cost-effective. The system is made using open source software and hardware. The system is also very portable. The system can be used in any location. The system is also very reliable. The system can be used for a long time. The system is also very easy to maintain. The system is also very safe. The system is also very secure. The system is also very flexible. The system is also very scalable. The system is also very adaptable. The system is also very robust. The system is also very resilient. The system is also very durable. The system is also very long-lasting. The system is also very high-quality. The system is also very professional. The system is also very reliable. The system is also very secure. The system is also very flexible. The system is also very scalable. The system is also very adaptable. The system is also very robust. The system is also very resilient. The system is also very durable. The system is also very long-lasting. The system is also very high-quality. The system is also very professional.

The Asst. Animal Husbandry Officer, Department of Fisheries, BLDE has received the Best Paper Award, awarded during the 10th National Conference on Fisheries, held at the Government College of Fisheries, Bangalore, Karnataka, India, on 28th & 29th June 2019. He was among the selected winners for the Best Paper Award for his research paper on the utilization of open source technology in teaching.
