**Biomedical Waste Management Committee**

**Minutes of the meeting**

The Biomedical Waste Management Committee meeting was conducted on 9.03.2016 at 11:30 A.M. in the Medical Superintendent chamber.

The following members attended the meeting:-

1. Dr. Vijaykumar Kalyanappagol, Medical Superintendent – Chairman 
2. Dr. M. M. Angadi, Prof. & Head, Dept. of Community Medicine - Member 
3. Dr. D. G. Talikoti, Prof. & Head, Dept. of Anaesthesiology – Member 
4. Dr. B. K. Patil, Asst. Medical Superintendent – Member 
5. Mr. Eknath P Jadhav, Asst. Hospital Administrator – Member 
6. Mr. A. N. Sutrave. Nursing Superintendent → 
7. Mr. R. C. Kamble, ETP/Incinerator Operator – Member 
8. Mrs S. S. Mathpathi, Nursing Supervisor – Member → 
9. Operation Theatre Incharge – Member → 
10. Dr. Smitha Bagali, Associate Professor, Dept of Microbiology – Member Secretary

- Minutes of previous meeting were read and passed.
- Mr S. Ramesh, Environmental Officer, has been consulted for disposal of e-waste. He has recommended quantity of at least fifty kilograms in each category of e-waste for accepting it for waste management.
- Quotation for new chimney of incinerator has been procured.

- Small containers for disinfection of sharp wastes at source in the wards have to be procured.
- Application for renewal of consent for discharge of effluents under the Water Act (Prevention and Control of Pollution) 1974 from effluent treatment plant (130KLD) and consent for discharge of emissions from incinerator under the Air Act (Prevention and Control of Pollution) 1981 is submitted to RO, Karnataka State Pollution Control Board.
- Application to obtain consent for discharge of effluents under the Water Act (Prevention and Control of Pollution) 1974 from new effluent treatment plant (150KLD) is also submitted to RO, Karnataka State Pollution Control Board.

**Minutes of the meeting**

The Biomedical Waste Management Committee meeting was conducted on 29.06.2016 at 11:30 A.M. in the Medical Superintendent chamber.

The following members attended the meeting:-

1. Dr. Vijaykumar Kalyanappagol, Medical Superintendent – Chairman
2. Dr. Shailaja Patil, Prof. & Head, Dept. of Community Medicine - Member
3. Dr. D. G. Talikoti, Prof. & Head, Dept. of Anaesthesiology – Member
4. Dr. B. K. Patil, Asst. Medical Superintendent – Member
5. Mr. Eknath P Jadhav, Asst. Hospital Administrator – Member
6. Mr. A. N. Sutrave. Nursing Superintendent
7. Mr. R. C. Kamble, ETP/Incinerator Operator – Member
8. Mrs S. S. Mathpathi, Nursing Supervisor – Member
9. Operation Theatre Incharge – Member
10. Dr. Smitha Bagali, Associate Professor, Dept of Microbiology – Member Secretary

- Minutes of previous meeting were read and passed.
- Application for renewal of authorization for generation, collection, reception, storage, transportation, treatment, disposal and/or handling biomedical waste given by Karnataka State Pollution Control Board for 1400 bed has been submitted.

- Quotation for new chimney of incinerator has to be procured.
- Segregation of biomedical waste in various wards is satisfactory.
- It was suggested that organic waste generated in the BLDE campus could be used for generation of biogas.
- Application for renewal of consent for discharge of effluents under the Water Act (Prevention and Control of Pollution) 1974 from effluent treatment plant (130KLD) and consent for discharge of emissions from incinerator under the Air Act (Prevention and Control of Pollution) 1981 is resubmitted to RO, Karnataka State Pollution Control Board.
- Application to obtain consent for discharge of effluents under the Water Act (Prevention and Control of Pollution) 1974 from new effluent treatment plant (150KLD) is resubmitted to RO, Karnataka State Pollution Control Board.

  10. Dr. Smitha Bagali, Associate Professor, Dept of Microbiology – Member Secretary
- Minutes of previous meeting were read and passed.
  - Renewal of consent for discharge of effluents under the Water Act (Prevention and Control of Pollution) 1974 from effluent treatment plant (130KLD) and consent for discharge of emissions from incinerator under the Air Act (Prevention and Control of Pollution) 1981 has been obtained

- Water obtained from Effluent treatment plant will be used for gardening for which civil work is in progress.
- Containers in which biomedical waste is collected are not maintained properly for which Nursing supervisor was asked to take required action.
- Needle cutters need to be installed in operation theatre.
- Disinfection tanks are not being used appropriately.
- Quotation for new chimney of incinerator has to be procured.
- Segregation of biomedical waste in various wards is satisfactory.
- It was suggested that domestic waste generated in the BLDE campus could be used for generation of manure.

**Biomedical Waste Management Committee**

**Minutes of the meeting**

The Biomedical Waste Management Committee meeting was conducted on 12.04.2017 at 11:00A.M. in the Medical Superintendent chamber.

The following members attended the meeting:-

1. Dr. Vijaykumar Kalyanappagol Medical Superintendent - Member 
2. Dr. Vijaykumar Warad, Asst. Medical Superintendent - Member 
3. Dr. Shailaja Patil, Prof. & Head, Dept. of Community Medicine - Member 
4. Mr. Eknath P Jadhav, Asst. Hospital Administrator - Member 
5. Mr. R. C. Kamble, ETP/Incinerator Operator - Member 
6. Mrs S. S. Mathpathi, Nursing Supervisor - Member 
7. Mr. Shrishail Nagthan, Housekeeping Supervisor - Member 
8. Operation Theatre Incharge - Member 
9. Dr. Smitha Bagali, Associate Professor, Dept of Microbiology - Member Secretary

- Minutes of previous meeting were read and passed.
- Three quotations have been obtained for upper three piece of chimney (incinerator) and submitted to BLDE University to release funds in order to procure the same.
- Statement from technical officer about the lower two piece of chimney need to obtained that they in good condition and need no replacement for atleast next five years.

O/C

- Karnataka state pollution control board has availed consent for expansion of the unit (from 940 bed to 1400 bed) in the existing premises under the water (Prevention & Control of Pollution) Act, 1974 & the Air (Prevention & control of Pollution) Act 1974 at Shri. B. M. Patil Medical College Hospital & Research Center.
- Treated water from effluent treatment plant is not yet being used for gardening due to some technical problems.
- Dental OPD need smaller biomedical waste collection bin due to lack of space.
- Black bags used for general waste have to be replaced daily.
- Biomedical waste should be collected in the morning between 6:00 A.M to 8:00A.M.
- Disinfection of blood stained gown and linen by treating it with sodium hypochlorite solution has led to discoloration of these articles. It was suggested that disposable plastic sheets could be used to prevent blood staining of linen.
- Hoper of shredding machine is undergoing corrosion so needs be replaced.
- Segregation of biomedical waste in various wards is satisfactory.

**Biomedical Waste Management Committee**

**Minutes of the meeting**

The Biomedical Waste Management Committee meeting was conducted on 19.07.2017 at 11:30A.M. in the Medical Superintendent chamber.

The following members attended the meeting:-

1. Dr. Vijaykumar Kalyanappagol, Medical Superintendent - Member
2. Dr. Vijaykumar Warad, Asst. Medical Superintendent – Member
3. Dr. Shugota Chakrabarti, Chief operating officer - Member
4. Dr. Shailaja Patil, Prof. & Head, Dept. of Community Medicine – Member
5. Mr. Eknath P Jadhav, Asst. Hospital Administrator – Member
6. Mrs Jeyanthi. R., Nursing Superintendent – Member
7. Mr. A. N. Sutrave, Nursing supervisor
8. Mr. R. S. Balloli, Engineer – Member.
9. Mr. R. C. Kamble, ETP/Incinerator Operator – Member
10. Operation Theatre Incharge – Member
11. Dr. Smitha Bagali, Associate Professor, Dept of Microbiology – Member Secretary

- Minutes of previous meeting were read and passed.
- The upper three pieces of chimney (incinerator) have been procured.
- Statement from technical officer about the lower two piece of chimney that they are in good condition and need no replacement for atleast next five years has been obtained.

- Treated water from effluent treatment plant will be used for gardening shortly.
- Dental OPD will be provided with small biomedical waste collection bins.
- General waste should be segregated into wet & dry waste at source. It was suggested that segregation of general waste into dry & wet waste should be initiated in wards.
- Vibration noise generated by suction vacuum pump is disturbing the staff & patients in Pediatrics & Ophthalmology OPD. So to dampen the effect of noise, use of antivibration panels was suggested or a double brick wall can be constructed between the window & suction vacuum pump.
- Disinfection of blood stained gown and linen by treating it with sodium hypochlorite solution has led to discoloration of these articles. Hence it was suggested that one Mackintosh sheet for every 10-12 beds should be made available. It should be used for patients on drain, with bleeding etc.
- Hoper of shredding machine is undergoing corrosion so needs to be replaced. Quotations for hoper have to be procured.
- Segregation of biomedical waste in various wards is not satisfactory.
- Use of chlorinated plastic bags, gloves & blood bags need to be phased out.
- All health care workers involved in handling of biomedical waste need to be immunized against diseases like Hepatitis B & tetanus. Immunisation card has to be prepared which will have details of the immunization schedule.
- Bar-Code system for bags or containers containing biomedical waste must be established.
- Health check up should be conducted atleast once a year for all health workers & others involved in handling of biomedical waste & maintain records of the same.
- Biomedical waste management register should be maintained & updated on day to day basis & displayed as monthly record on the website according to biomedical waste generated in terms of category and colour coding.
- Annual report should be available on the website.

- Chemical treatment should be done using atleast 10% sodium hypochlorite having 30% residual chlorine for 20 minutes.
- Log book for each treatment equipment should be maintained according to weight of batch, categories of waste treated, time date & duration of treatment cycle & total hours of operation.

**Biomedical Waste Management Committee**

**Minutes of the meeting**

The Biomedical Waste Management Committee meeting was conducted on 23.11.2017 at 11:30A.M. in the Medical Superintendent chamber.

The following members attended the meeting:-

1. Dr. Vijaykumar Kalyanappagol, Medical Superintendent - Member
2. Dr. Vijaykumar Warad, Asst. Medical Superintendent → Member
3. Dr. Shugota Chakrabarti, Chief operating officer – Member
4. Dr. D. G. Talikoti, Prof & Head, Dept. of Anaesthesiology - Member
5. Mr. Eknath P Jadhav, Asst. Hospital Administrator – Member
6. Mrs Jeyanthi. R., Nursing Superintendent – Member
7. Mr. R. C. Kamble, ETP/Incinerator Operator – Member
8. Operation Theatre Incharge – Member
9. Mr. Dundappa Ingale, Housekeeping Supervisor – Member
10. Dr. Smitha Bagali, Associate Professor, Dept of Microbiology – Member Secretary

- Minutes of previous meeting were read and passed.
- Treated water from effluent treatment plant is being used for gardening.
- Noise generated by suction vaccum pump has to be tested for db.

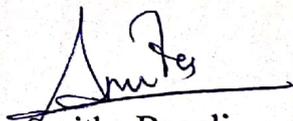

- Quotations for hopper of shredding machine have been procured.
- Health check up cards for health care workers has to be prepared.
- Chemical liquid waste generated at A, B & C block of hospital are not yet drained to effluent treatment plant for final treatment. A pump has to be procured to direct the chemical liquid waste from these blocks to effluent treatment plant.
- As per biomedical waste management rules, 2016 biomedical waste are classified into four categories – yellow category, red category, white category, blue category.
- These categories are further divided as per the type of waste under each category as follows:

CATEGORY	TYPE OF WASTE
YELLOW	Human & Animal Anatomical Waste Soiled Waste Discarded or Expired Medicine Chemical Waste Chemical Liquid Waste Discarded linen, mattresses, beddings contaminated with blood or body fluid. Microbiology, Biotechnology and other clinical laboratory waste (Pre-treated)
RED	Contaminated Waste ( Recyclable )
WHITE	Waste Sharps including metals
BLUE	Glassware Metallic Body Implants

- Type of container and bag to be used for waste segregation and collection is as follows:

Category	Color & Type of Container
Yellow Category	Yellow colored Non Chlorinated Plastic Bags ( having thickness equal to/ more than 50 $\mu$ ) or containers
Red category	Red Coloured Non Chlorinated Plastic Bags ( having thickness equal to/more than 50 $\mu$ ) and Containers
White Category	White Coloured translucent, puncture proof, leak proof, Temper Proof containers.
Blue Category	Cardboard boxes with blue colored marking or blue colored puncture proof, temper proof containers.

- Microbiology, biotechnology & other clinical laboratory waste must be pre-treated before discarding into yellow bin by autoclave/ microwave/ hydroclave /disinfection using nonchlorinated chemical disinfectants like calcium oxide, phenolic compounds.
- Sharp pit must be 1mt $\times$ 1mt $\times$ 1mt concrete lined protected pit with a cemented lid.
- All records regarding biomedical waste management must be retained for a period of five years.

**Biomedical Waste Management Committee**

**Minutes of the meeting**

The Biomedical Waste Management Committee meeting was conducted on 11.04.2018 at 11:30A.M. in the Medical Superintendent chamber.

The following members attended the meeting:-

1. Dr. Vijaykumar Kalyanappagol, Medical Superintendent - Chairman
  2. Dr. Vijaykumar Warad, Asst. Medical Superintendent – Member
  3. Dr. Shailaja Patil, Prof & Head Dept. of Community Medicine - Member
  4. Dr. D. G. Talikoti, Prof & Head, Dept. of Anaesthesiology - Member
  5. Mr. Eknath P Jadhav, Asst. Hospital Administrator – Member
  6. Mrs Jeyanthi. R., Nursing Superintendent – Member
  7. Mr. R. C. Kamble, ETP/Incinerator Operator – Member
  8. Operation Theatre Incharge – Member
  9. Dr. Smitha Bagali, Associate Professor, Dept of Microbiology – Member Secretary
- Minutes of previous meeting were read and passed.
  - Working duration of vacuum compressor & air compressor has been adjusted with help of a timer hence causing a lesser amount of annoyance.
  - Quotations of shredding machine for case papers have to be procured.
  - Quotations for hopper of shredding machine have been procured.
  - Health check up card for health care workers has to be prepared.

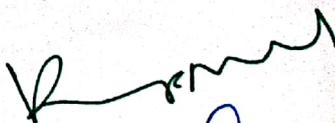

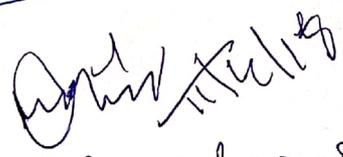

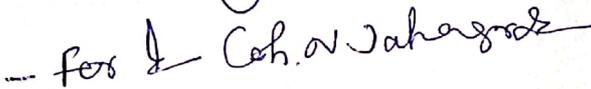

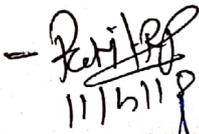

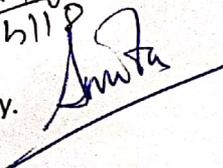

- Chemical liquid waste generated at A, B & C block of hospital are not yet drained to effluent treatment plant for final treatment. A pump has to be procured to direct the chemical liquid waste from these blocks to effluent treatment plant. Construction cell has been informed about the issue. It is still under process.
- Sharp pit measuring 1mt×1mt×1mt which is concrete lined protected pit with a cemented lid has yet to be prepared.
- Authorization for generation, collection, reception, storage, transportation, treatment, disposal and/or handling of biomedical waste given by Karnataka state pollution control board has to be renewed as it will expire on 30/6/2018.
- Media inside the sand & carbon filter of effluent treatment plant have to be replaced. Quotations for the same have to be procured.
- New biomedical waste transportation trolley with bin (3 in No) have to be procured as the old ones are damaged.
- Back wash water from swimming pool is being connected to sludge tank of effluent treatment plant. Pipeline work is in progress.
- Sludge transfer pump need to be replaced by new pump. 3/5 hp pump will be desirable.
- Refractory lining in primary & secondary chamber of incinerator need to be repaired or replaced.

  
 Dr. Smitha Bagali  
 Member Secretary

- For information to The Registrar.
- For information to Hon'ble Vice Chancellor.

BMW Committee meeting held on 11/4/2018  
was attended by:

1. Dr. Vijaykumar Kalyanappagol  
Medical Superintendent. 
2. Dr. Vijaykumar Warad  
Asst. Medical Superintendent. 
3. Dr. Shugota Chakrabarti  
Chief Operating Officer
4. Dr. Shailaja Patil.  
For Prof. & Head, Dept. of Community Medicine. 
5. Dr. D. G. Talikoti.  
Prof. & Head, Dept. of Anaesthesiology. 
6. Mr. Eknath Jadhav.  
Asst. Hospital Administrator. 
7. Mrs. Jeyanthi. R  
Nursing Superintendent. 
8. Mr. R. C. Kamble.  
ETP/Incinerator Operator. 
9. Mr. Dundappa Ingale  
Housekeeping Supervisor.
10. Operation Theatre Incharge -   
11/5/18
11. Dr. Smitha Bagali  
Associate Professor, Dept of Microbiology. 
12. Mr. Rajshakar Balloli -  
Maintenance Engineer.

**Biomedical Waste Management Committee**

**Minutes of the meeting**

The Biomedical Waste Management Committee meeting was conducted on 07.09.2018 at 11:30A.M. in the Medical Superintendent chamber.

The following members attended the meeting:-

1. Dr. Vijaykumar Kalyanappagol, Medical Superintendent - Chairman
  2. Dr. Vijaykumar Warad, Asst. Medical Superintendent – Member
  3. Dr. S. S. Nagatham, Resident Medical officer – Member
  4. Dr. D. G. Talikoti, Prof & Head, Dept. of Anaesthesiology - Member
  5. Mr. Eknath P Jadhav, Asst. Hospital Administrator – Member
  6. Mrs Jeyanthi. R., Nursing Superintendent – Member
  7. Mr. R. C. Kamble, ETP/Incinerator Operator – Member
  8. Operation Theatre Incharge – Member
  9. Dr. Smitha Bagali, Associate Professor, Dept of Microbiology – Member Secretary
- Minutes of previous meeting were read and passed.
  - New hopper for shredding machine has been procured.
  - Annual Health check up card for health care workers has been prepared.
  - Chemical liquid waste generated at A, B & C block of hospital are not yet drained to effluent treatment plant for final treatment. A pump has to be procured to direct the chemical liquid waste from these blocks to effluent treatment plant. Quotations for new pump have been procured.

- Sharp pit measuring 1mt×1mt×1mt which is concrete lined protected pit with a cemented lid has to be constructed near ETP (150 KLD)
- Application for renewal of authorization for generation, collection, reception, storage, transportation, treatment, disposal and/or handling of biomedical waste given by Karnataka state pollution control board has been submitted to District Environmental Officer.
- Media inside the sand & carbon filter of effluent treatment plant have been replaced.
- Quotations for the biomedical waste transportation trolley with bin (3 in No) have been procured.
- Pipeline work which will direct back wash water from swimming pool to sludge tank of effluent treatment plant is completed.
- Sludge transfer pump has been replaced by new pump.
- Refractory lining in primary & secondary chamber of incinerator has been replaced by new one.
- A weighing machine to weigh biomedical waste collected at each ward has to be procured.
- Wet & dry waste generated in wards should be segregated.
- Segregation of biomedical waste in different wards is satisfactory.

  10. Mr. R. C. Kamble, ETP/Incinerator Operator – Member
  11. Operation Theatre Incharge – Member
  12. Dr. Smitha Bagali, Associate Professor, Dept of Microbiology – Member Secretary
- Minutes of previous meeting were read and passed.
  - Renewal of authorization for generation, collection, reception, storage, transportation, treatment, disposal and/or handling of biomedical waste given by Karnataka state pollution control board has been obtained.

- Biomedical waste transportation trolleys with bin (3 in No) have been procured.
- Media of sand filter (water treatment plant) has been replaced.
- In both 150 & 300 KLD effluent treatment plant air diffuser and inside pipeline have been replaced.
- In 300 KLD effluent treatment plant clariflocculator has been replaced.
- The roof top sheets of incinerator plant room have been replaced by new ones.
- According to BMWM Rules 2016, pretreatment of biomedical waste generated in Laboratory is essential. Hence an autoclave needs to be procured for the same.
- Recyclable biomedical waste should be treated by autoclaving/ hydroclaving / plasma pyrolysis. At present we are treating by chemical disinfection with 1% sodium hypochlorite for 30 mins. Therefore an autoclave must be procured for treatment of recyclable waste.
- It was suggested that bleaching powder can be used for preparing 1% sodium hypochlorite solution. The sodium hypochlorite solution will be prepared under the supervision of Mr Kambale and distributed to wards & laboratory.
- For nonchlorinated disinfection of contaminated & discarded linen, bedding & mattresses hydrogen peroxide must be procured by store.
- It was suggested that audit for biomedical waste generated in wards must be initiated.
- Website for biomedical waste management of our hospital has been created.
- It was suggested that two separate bins, for recyclable waste & biodegradable waste (general waste) should be used in the hospital premises.
