SHIVJANMOTSAV

"Celebrating 390th Birth Anniversary of Chatrapati Shivaji Maharaj"

Date: 19.02.2020

On the occasion of 390th birth anniversary of the great emperor Chatrapati Shivaji Maharaj, there was a huge celebration in BLDE (Deemed to be University), Shri BM Patil Medical College Hospital and Research Center on 19/02/2020.

Bestowing the legacy of the great Chatrapati Shivaji Maharaj there were two events organized by the students and very well supported by Principal sir, Dean student affairs, and HOD's of several departments along with other staff members and a very well co-operating hospital staff and patients.

1) Blood Donation Camp

This was a special event initiated this year and which will be continued for upcoming years. There was a blood donation camp organized by the volunteers and there was a great response for this camp wherein one hundred students volunteered their names for blood donation and Twenty five students donated blood.

2) Fruit distribution to the patients

Fruits and biscuits were distributed to all the patients in the hospital. The students personally gave fruits and biscuits to each and every patient in the hospital, for which there was a good response from the patients and their family members.

**GANESH CHATURTHI CELEBRATION 2020
REPORT**

Ganesh Chaturthi is a festival which celebrates birth of lord Ganesha and destroyed evil with love and to spread the message of honesty and love through this world. This year Bappa's birth is celebrated from 22 August to 26 august. The devotees bring an idol of lord ganesha into our home as our guest and worship it for a span of 10 days. However, this year on account of the coronavirus pandemic, most celebrations have been cut short to one or two days. But , here in our hostel we celebrated this festival for 5 days. Great initiatives have taken by Dr.A.P.Ambali, Dr.Nuchi, Dr.Santosh, Dr.Rutuja, Dr.Piyushi, Dr.Sunny. Daily aarti was offered to lord ganesha both in the morning and evening time in presence of our BLDE DU staff members ,our beloved vice-chancellor Dr.M.S.Biradar sir, principal-Dr.Aravind patil, vice-principal Dr.S V.Patil, Medical superintendent Dr.R.M.Honnutagi, Prof. Dr.Mantur sir, Prof Dr Warad, Prof Dr Vijayakumar K, Dr.Mrs Devarmani Mam, Dr.shailaja Bidri Mam and large number of undergraduate and postgraduate students participated in the pooja.

Wishing you happiness and create goodness all around you on this auspicious day. Happy Ganesh Chaturthi to all.

DEEPAVALI FESTIVAL CELEBRATIONS 2020

All the students (UG, Interns, PG) and faculty members are invited to participate in Deepavali festival

on 16/11/2020 Time- 07.00PM Venue- BLDE University premises

Principal

Report

All the students (UG, Interns, PG) and faculty members were invited to participate in Deepavali Festival arranged on 16/11/2020 between 7 to 8 PM in BLDE University premises.

Diwali is a festival of lights and major festival celebrated all over world. This festival symbolizes new beginnings and triumph of good over evil and light over darkness. This festivities usually last for five days and include gathering with family members, sharing tasty food, watching spectacular fireworks and visiting temples.

But as the corona pandemic continues to halt plans for mass gatherings and travelling, this year's Diwali was difficult for many. So in our medical college we had opportunity to celebrate this festival on 16th November by offering Pooja of Goddess Lakshmi.

RIGHT TO FREEDOM OF EXPRESSION

Students are free to express their views in every issue of News Bulletin under the column 'Student Writes....'

Student Writes...

The first day of my college, 4th August 2012, a day that got attached in the memories in my life forever. Being a doctor was always been my dream since childhood, and since the selection into a medical college, I was just on cloud nine.

The day one of college, where I lived my dream, with the white apron on, the feeling of becoming a doctor, everything was just so overwhelming.

The journey of my college life has been full of ups and downs. The major challenges ahead of me were routine classes, lectures, practical, tutorials and postings. The classrooms were a new world to me where I felt I knew nobody and I am unique among them. The best part of my college has been dissection classes where I had the first time experience of knowing the anatomy of the human body. Freshman experience definitely makes an impression on you. The operation theatres have also always fascinated me.

The college apart from education has also given a platform for extracurricular activities through sports and cultural programmes. I also was fortunate enough to pursue a research project, which was sponsored by ICMR. It actually helped me gain insights about practicality of the research. This was possible only because of my mentors who were always there to guide and support me.

Days have passed and I have reached my final year. When I look back, I still remember those sleepless nights of exams, exhausting schedules, birthday celebrations at hostel, fights, friendships and the list goes on.

Overall, it has been a roller coaster ride. As they say, college is about finding yourself, I have definitely found myself as it has given me the chance to sharpen my skills in my field of choice. There has always been and will always continue to be opportunities to learn more.

Waiting for the day to become Dr. Yojana Goyal !!!

Miss. Yojana Goyal
III Year MBBS

Student Writes...

I with immense pride say that I got PG seat where I completed my UG. It's a great and interesting journey for me from my UG life to PG life.

Yah! I am speaking about BLDEU's Shri B. M. Patil Medical College. This is one of the oldest and famous colleges in North Karnataka. The college has wide range of students from many states and even from different countries.

The environment of the college is so friendly that students enjoy every moment and learn many things. Our college is platform where students are boosted with professional skills to enter the competitive world of Medicine.

The lectures are so knowledgeable that students are easily conveyed with the subjects. Our college has achieved high academic standards which has enhanced the student participation in acquiring knowledge about medicine, the way of practicing and applying the knowledge of practice in the society to achieve definite outcomes of health,. The way of approaching to the patients with proper care and medication is a science which we learnt through many of the activities and skills provided by the college.

The provision of standard education is quiet a difficult task, but it is achieved by this college with a motto of proper output of knowledge and effective health care.

There are several departments which a work to meet the high quality of education. Speaking of our department, Pharmacology, the Professors/Lecturers are co-operative & help to learn the subject in depth and knowledge about drugs. We have been provided with highly equipped laboratories which are the milestone for any research to be carried out.

Last but not the least, the students are provided with many opportunities to participate in various cultural & sports events for holistic development.

Dr. Syed Shoab
II Year Post Graduate Student,
Dept. of Pharmacology

Student Writes...

I feel immense pleasure to express my gratitude towards my college. I am proud to say to be called as Student of Shri B. M. Patil Medical College, BLDE University, where we team real essence of medicine!

Our University has offered the wonderful opportunity for meritorious students of Vijayapura. Students with high merit in K-CET are provided with Free MBBS education and I am proud to say that I am one among them.

All on my one-year journey, each department taught in an excellent manner, so that we were given with complete knowledge of that particular subject both in practical and theoretical aspect. I was so glad to hear the lecture by our professors. They are knowledgeable and supportive of us. They encouraged us in all co-curricular activities. They were accessible in the department all time and wholeheartedly welcomed all our queries regarding subjects. They have sown the seed of humanity, concern, kindness and patience that the Good Doctor must have. I am sure that the seed would sprout into the plant, which again grows in the tree. That tree would shelter the upcoming generations. I am must really mention about our Non-Teaching Staff. They guided us in the entire academic year.

Our college has good infrastructure with 24 x 7 facility of the library. We are completely secure in all around the campus. I thank to all our Securities.

Lastly, I must really mention that, I am proud to be called as the fruit of the tree called as BLDE University!!!

Thank you.

Student Writes...

MED school, the thought had always made me have multiple emotions. The thrill of being a part of it and also fear of surviving it.

Perhaps, after joining Shri B. M. Patil Medical College, I realized that all my fears were vague. Only after being a part of this Institute, I released why it has reached such heights.

As the saying goes 'The value of the place is measured by the kind of people working there', our professors, our entire staff folks have an extraordinary depth of commitment, their passion for their work, their willingness to embrace our new ideas, their determination to overcome any obstacle hindering our progress as that of the institute is truly outstanding.

Their support and love is such a homely feeling. The infrastructural and learning facilities, we have are no less than any top colleges in India.

Not to forget, the green of campus and stone building are charming and it is such a great place to relax and study. Talking about opportunities, we have plenty in research works, projects, seminars, co-curricular like sports, literary and cultural events and the list goes on.

Today, I am extremely happy to say I am student of such marvellous institute. I feel safe in my career and future.

Tomorrow, this institute will be part of everything I shall achieve and I shall always try to make the institute proud of me.

Thank you,

Sadafara Janvekar

"As we express our gratitude, we must never forget that the highest appreciation is not to utter words, but to live by them."- John F Kennedy.

From the day, I took admission to BLDE University on the day of counseling, I had a fear in me regarding the new environment I would be exposed to. But the life at BLDE completely transformed my view point.

I came from a small city of U.P to a completely new place having students from almost all the states of India each having different perspective.

Teachers and faculty of all the three departments of first year MBBS at Shri B. M. Patil Medical College made us realize our hidden potential, build on our talent and achieve great feats of success.

Lectures and Demonstrations given to us are so helpful that it needs only half of the effort from our side to understand the concept.

Teachers at this college gave me the strength to face challenges confidently and emerge out with flying colours.

The care and affection with which every member of BLDEU family has nurtured me has set deep gratitude and love for the institution.

I am sure with this gratitude nurtured in me by this institution will make me an apical wavering face in the branch of medicine.

Title - Breaking the orthodox and spreading as a rainbow??

Sun rises in the east, the smallest and earliest ray of light on the horizon sparking with the lowest luminosity, met with a translucent, freezing drop of dew in the atmosphere, at the smallest hour of the day it pierced the drop, occupied the lumen, melted the drop and melted it from inside to outside... And then refracting and spreading as a rainbow.

So it's the dawn time, the rays have left the ultimate source of energy, i.e. sun, and entered in the atmosphere.

It's not like that, the ray doesn't have to struggle, but it's the journey of rays from a general luminous white light to, amazing and beautiful rainbow.. The rainbow that we are expected to form is the one of peace and love and at the same time showing the colors of art and aggression..

Many rays from different and diverse sources came and meet the drop named BLDE and now undergoing transformation to be a unified rainbow.

Where there are visible vapors in ignited carbonaceous materials, there is conflagration. Yes where there's smoke, there is fire, while we were carrying the fire in our hearts, BLDE provided the well needed ignition fuel that may lead that fire to come out and warm this world, because winter is coming...

Exclusive dedication to necessitous chores without interludes of hedonistic diversion renders John a hebetudinous fellow. Therefore, there in BLDE we are not only studying but CCA activities are also welcomed.

So in the beginning, we had nothing, but now we have most of it. As time doesn't exist, but the clock exists. What we were never matters anymore. But now we are going to be something, Yeah we are going to be Doctors. Not just doctors, but 5 star doctors.

THE HEALING POWER OF MUSIC

Is there a better proof of music therapy than a lullaby that puts a child to sleep? That music has unlimited powers, is a well established fact. It has soothing and healing power. Just as the application of balm relieves our brain of its ache and tension, so music can relax the tense muscles of our Body. The melodious notes of music either vocal or instrumental have the capacity to cure the mental and physical fatigue of a weary person.

When do we hear Music for the first time?

Music appreciation begins right in the wombs, with the foetus listening to the mother's hearts beat and her choice of music. It has been proved that after birth, the child shows an inclination to listen to what it heard as a foetus.

History of music therapy

Indian music therapy is an integration of ancient healing practices and musical traditions coupled with modifications derived from clinical practices. 'Music therapy' is a commonly heard phrase though not much in vogue India.

This idea was popularised in our south by shree Mangalampalli Balamuralikrishna, a carnatic vocal exponent. 'Raga Chikistas' was the original Sanskrit that dealt with curative ragas with mood enhancing characteristics used in clinical application

Vedic lore says 'samaveda' paved the way for music. Perfect chant with apt stress on each syllable of 'mantra' emanates its own power. experiments with sound and its effects proved that the 'Omakara Nada' in a particular frequency sound has effect as through lifting mortal soul to celestial heights, and sound beyond certain decibels can send some to psychiatric care.

Some Indian ragas when sung well are said to have caused rains, eased disturbed persons and even led to crops and giving better yield. Apparently some ragas are earmarked for the 'Navarasas' or the nine emotions. Some ragas, claim musicians, have healing effects as these nine emotions. ule our body and mind. Musics therapy is said to have been practiced from biblical times. Aristotle described music as a force that purified emotions. Hippocrates, father of modern medicine, was said to have playing music to treat his mental patients. It is said that 13th century Arab hospital had music

Rooms attached, Mental trauma of the soldiers in the war fields is addressed by performing music before them. It is a kind of 'neurological music therapy'. Paediatric wards abroad are filled with toys and musical instruments. Magical power: The stories of Tansen and Biju Bawar are not unknown to us. They could light lamps, melt stones, blossom flowers in autumn, cause rain just by the accurate use of the 'accurate tune'.

Treatment Aspects: A serious music therapy session too requires case study to first assess whether this medium of therapy can be extended to improve motor and emotional skills for effective treatment. Music is more suited for palliative care and hence should always be

combined with traditional treatment. In some hospitals, even in India, mellow music is played to divert and relax patients.

There is also what is called 'MELODIC INTONATION THERAPY' THAT CORRECTS SPEECH DISORDERS. Stroke therapy yields better fast results if music therapy is added says doctors. This proficiency needs knowledge in theory and practice of music with added creative skills (Manodharma).

Across the world, physicians, surgeons, psychiatrists, psychologists are seeking the help of music therapists for better result. As music therapy is now an established health profession, doctors first assesses the needs of the patient. A qualified music therapists indicates what choice of Raga and Tala and whether it is vocal or instrumental music that suits the patient. While instruments provide a continuous melodic pleasure, vocal music adds a pinch of spiritual element through the lyrical content.

Few main aspects where music therapy is practiced: Asthma relief, Diabetes, High blood pressure, Stress relaxation, Insomnia, Increase concentration, Low Blood Pressure etc.

INDIVIDUAL RAGA AND ITS EFFECTS

NAME OF RAGA	EFFECTS
Rag Peoria dhanasri	Evokes sweet, deep, heavy, cloudy and stable state of mind and prevents acidity.
Raag Bageshri	Arouses a feeling of darkness, stability, depths and calmness. This raga is also used in treatment of diabetes and hypertension.
Raag darbari (darbari Kanada)	Very effective in easing tension. It is a late night raga, composed by Tansen for Akbar to relieve his tension after hectic schedule of the daily court life.
Raag Todi	Tremendous relief to patients of high blood pressure, cold and head ache.
Raag Ahir-Bhairav (Chakravakam)	Is supposed to sustain chords which automatically brings down blood pressure.
Raag Malkauns	Helps to cure low blood pressure
Raag Bhairavi	Provides relief for T. B, cancer, severe cold, phlegm, sinus, tooth ache.
Raag Malhar	Useful in the treatment of asthma and sun stroke.
Raag Desh	The suppression of the senses, releases a negative force. The process of sublimation needs a spiritual path. Raag Desh can provide that. Its energy gives the listener serenity, peace, inner joy, right valor, universal love and patriotism. 'our national song was composed in this raag'
Raag Hindol and Marava	These ragas are used in blood purification.

I still remember the day, I stepped on the land, which I have been dreaming of for the past two years. It seemed like a paradise on the earth, a beaming ray of sun striking in my eyes, which were tired of the tail of years. The overwhelming sense of my biggest dream, my sole aim was coming true, right in front of my eyes. The sense of gratefulness, for being accepted among the elites, is so high that the feeling is impossible to express in words. Nevertheless, I will give it a try.

And then, the 'high on life' the life in Shri B. M. Patil Medical College began. (It is completely a different world, where people live to the fullest. You will never find another place like BLDE, even if you do, it will be impossible to find such a supporting professors, non-teaching staffs and a huge crowd). I don't know about the other college, but the first year in B. M. Patil is the best time you would ever have in your life. Seniors of the college are so awesome that I cannot describe the supportive nature of them. During the first interaction with my seniors. I was quite scared but later I began to enjoy it, trust me. It had transformed by personality in unimaginable ways, you won't believe the increase in my confidence level with just one month of this interaction.

1st year is tough, you are in a college and you have just added your entrance exams and spent 2-months doing nothing and it is hard to trick those heavy books up and study, entry into medical college and you are in cloud ring. More than me, my parents at the top of the world. I get to wear that "White apron with my name plate", followed by MBBS student. It is the most wonderful feeling that a medical aspirant can feel.

If it can be written or thought it can be filmed

-Stanley Kubrick

It's hard to pinpoint when my obsession with cinema started it's a gradual process, even after all these years I still remember my Goosebumps moment when I first saw sixth sense movie

looking at it now it's not a perfect movie actually no movie is perfect if we look at it critically, but it pulled me towards this medium cinema.

I just fell in love with that movie, perhaps it was always in me, as a kid I used to make home movies of my family gatherings and used to screen it on projector for my family no editing and nothing fancy just capturing the moments, as a fact I don't know what editing is even back then, after making my first futile short film with cousins I learned

about editing with the help of my brother it is he who introduced me to editing software.

After joining in medical course it became even more clear that cinema is the medium which I wanted to be in, **BLDE** became my experimental ground for cinema, I made a short film for fest in college and submitted it, my first film to be screened in an auditorium, not much story in it as I completed it in 2 days but the encouragement from my seniors and friends gave me a huge boost, my first award outside of my own college was in Kolar **Sri. Devraj urs medical college** it was completely unexpected.

As a result of my obsession with cinema my education was at still, I flunked in my first year but I am lucky enough that my parents always backed me up, they encouraged me and gave me support, then I made this movie **KAANADA KADALU** for my cultural's for which I got a standing ovation in my college, can never forget that moment, it's hard to put in words how I felt, I submitted the same movie for **INTERNATIONAL OPEN FILM FESTIVAL (IOFF)** held at **DHAKA**, it was my first submission for film festival all this time everything I did was mostly in my college, it got 7th place in **SOUTH ASIAN CATEGORY** which gave me huge confidence that yes I can make a feature film someday.

With the same confidence I wrote a script and went to Hyderabad to meet my friend as he told that he got a producer, narrated my script to this so called producer, he said he liked it, but nothing came out of it, he kept on dragging the dates, spent almost a month in a room in Hyderabad in hoping that I would get a chance to make a movie, it took some time to realize that it's not gonna happen, I was too naive at that point in my life to believe that I will make a movie just like that, it struck me down to reality that it ain't that easy but it taught me a big lesson.

Went back home, since I dint cleared my first year of my MBBS yet, I said that I want to quit this course and join in film school to my surprise I passed my first year again back to college.

Though I'm not good in academics, my professors supported me and encouraged me in every way they could, and gave me suggestions to improve, it is unusual in a medical college but I am lucky enough to be in such environment with the help of my professors and friends we made a programme called 'MAKE IT BIG' where I screened all my short films on 70mm in local theatre, never saw my movies on 70 mm before, I used to have this small fear deep inside my heart that is my decision right am I on the right path but that day that magic of 70mm eliminated all my fears it's a strong decisive moment in my life I told myself no matter what I will make a carrier in filmmaking and that I will make a movie someday.

I kept on making short films in college and made contacts with local theatre owner, and film enthusiasts, after several discussions with a local film maker Shiva Biradar we finally made a short movie named MAAHI we decided to screen it in theatre just like a regular movie after convincing the theatre owner, we were waiting for audience to come to theatre looking at watches nervously, 10.30 in morning no one showed up but slowly people started to show up, by 11:00 we got an attendance of 500 to 600 people in theatre got a good response didn't expected that people will whistle and clap, biggest experience of my life so far.

Meanwhile my batch mates were all graduating and leaving college, while I'm busy doing what I love to do, made a short film about our nostalgic experience in which all my batch mates played small parts in movie. It was a tribute to all my friends who helped me and encouraged me when I'm low and gave me that little courage when I'm in need.

My Endeavour continues started approaching producers again, but this time I was not that naïve with my experience in Hyderabad, just like expected it kept on delaying with false promises, I know it's not easy but I made a lifelong commitment to myself that this what I want to do for the rest of my life, for me cinema is not just an entertainment it helps us to broaden and challenge our perceptions about world.

Like jean-Luc Godard said I know nothing of life except through cinema, Right now I'm working as a colorist and additional cinematographer for two feature films, 1 film in kannada **JATTI** and 1 film in Marathi **FANJAR**.

HOPE MY JOURNEY CONTINUES AS A FILMMAKER...

INTERNATIONAL WOMEN'S DAY CELEBRATION

Date: 9.03.2020

Theme: 'I am generation equality: Realizing Women's Rights'

Chief Guest: **Mrs Mohankumari** KAS, Tahashildar and Executive Magistrate, Vijayapura, Karnataka

Celebration of International Women's Day was organized in the BLDE (DU), Shri B. M. Patil Medical College Hospital and Research Centre, BLDE (DU), Vijayapura on 9th March 2020. Mrs Mohankumari KAS Tahashildar and Executive Magistrate, Vijayapura was Chief Guest. She addressed the gathering and spoke regarding the role of women in building society and how a working woman accepts the challenges of balancing the family and professional life. She emphasized on "Matrutva", the motherhood which makes a woman stand out and prioritize her family amidst her busy schedule. A woman is a better administrator than man as she has higher emotional quotient and can resolve the issues amicably she added. She emphasized the role of men in the growth and development of women and how an understanding between husband and wife forms the basis for a strong support system of family thereby a better society. She proudly mentioned that times have changed and women almost everywhere are having an upper hand including politics and UPSC results. Honourable Vice-Chancellor, BLDE (DU), Dr M. S. Biradar, Principal, BLDE (DU), Shri B. M. Patil Medical College Hospital and Research Centre, Vijayapura, Dr Aravind Patil, Vice Principal, Dr Tejaswini Vallabha, Medical Superintendent Dr Vijaykumar Kalyanappagol, Dr R S Bulagouda, Dr Roopa Shahapur and faculty members were present.
