## THE FOUNDERS & VISIONARIES

**H.H. Shri. Banthanal Swamiji**

**Dr. Fa.Gu. Halakatti**

**Dr. B. M. Patil**

## FOUNDER OF THE UNIVERSITY

**Dr. M. B. Patil** B.E.

**President**

BLDE Association was established in 1910. It is committed to the cause of imparting quality education from primary to university in the backward region of North Karnataka. The Association is nurtured and shaped by great visionaries- Dr.P.G.Halakatti known as ‘Vachana Pitamah’ in Kannada Literature, Shri Shri Sanganabasaveshwar Maha Shivayogigalu of Banthanal, a great religious leader and Dr. B. M. Patil, a great statesman. Presently, the Association is guided by Dr.M.B.Patil, a young and dynamic leader.

### **BLDE UNIVERSITY**

BLDE University (Deemed to be University) came into existence on 29/2/2008 with the sole objective of providing quality Medical Education and meeting health care needs of the people in this backward region of North Karnataka. Shri B. M. Patil Medical College, Hospital & Research Centre is the only constituent college of the university, was established in 1986. It has unitary campus of 45 acres with 24 departments and a teaching hospital with 1125 beds.

The Institute has been offering: UG Programme-MBBS (with an intake of 150 students), B.S.c (MIT), PG Programmes in 18 disciplines, M.Sc. (Medical), PG Super Specialty Programme in Urology (M.Ch.), Ph.D. Programme in 14 disciplines and Innovative courses like Fellowship, Diploma and Certificate Courses in Medical and Allied sciences.

Research has received major thrust after being conferred with the Deemed to be University status. This has resulted in enhanced MoUs and Collaborations with reputed Universities and research institutes. Good number of research projects addressing social health care problems have been taken up and are yielding information which will be of direct benefit to the people of the region. The University Journal with international academics on Editorial Board is being published by Wolters-Kluwer. (BJHS).

With the generous support from the Sponsoring Society, University has expanded infrastructural facilities- Thrid floor added to existing hospital building, newer facilities created like Modular operation theatres, ICCU, CCU, NICU, DSA, etc. Also, departmental buildings of Biochemistry, Anatomy and Micribiology have been expanded, and facilities upgraded.

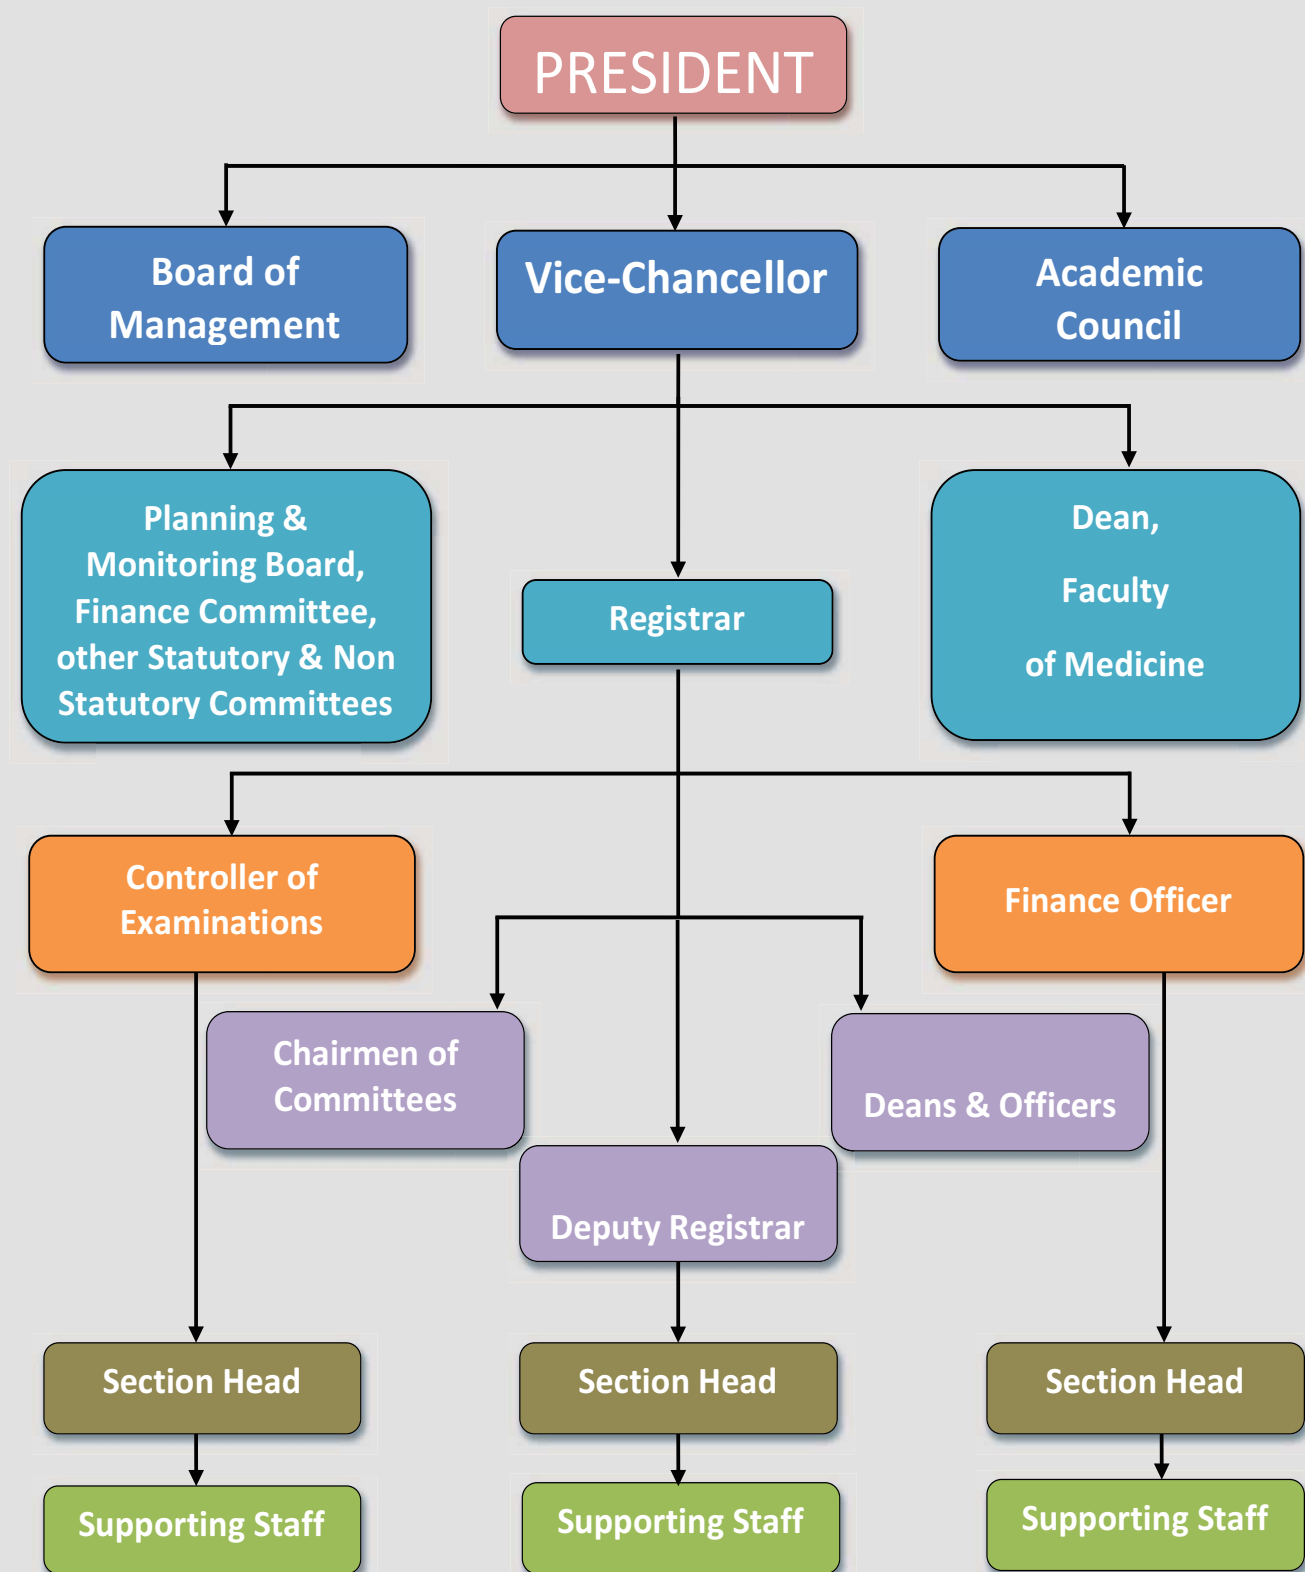

University has been concentrating on enhancing ICT facilities, strengthening and upgrading training (Skills Lab.), research facilities (Central Research Lab, Vascular Lab, Molecular Biology Unit, Genetics Lab and Cadevar Lab). Digital Integrated Campus Networking on Optical Fibre. This year, to the existing sports facilities, Swimming Pool has been added and Indoor Sports facilities is coming up.

BLDE University has deep concern for health care facilities provided to socially disadvantaged sections of the society both in rural and urban areas. It is worth mentioning that University has established a very well equipped Rural Health Centre in the nearby village, Ukkali.

Recently, the University has been assessed by NAAC and accredited with CGPA of 2.90.

### LIBRARY WORKING HOURS

Reference and Circulation Section: 8.00 am to 10.00 pm in all the 365 days.

Reading Facilities: 24 x7 all the 365 days.

A Campus Optical Fiber (OFC) Digital Data Network is a computer network that interconnects Local Area Networks (LAN) throughout a limited geographical area, such as a University campus or corporate campus. The networking equipments (switches, routers) and transmission media (optical fiber, copper plant, Cat5 cabling etc.) are almost entirely owned by the campus tenant / owner: an enterprise, university, government etc.

### Campus Network Topology

College or university campus area networks often interconnect a variety of buildings, including administrative buildings, academic buildings, university libraries, campus or student centers, residence halls, gymnasiums, and other outlying structures, like conference centers, technology centers, and training institutes.

Examples include the Bangalore University, NITTE University, KLE University etc. All of the nodes in a campus network are interconnected by means of optical fiber media, taking advantage of Gigabit Ethernet or 10-Gigabit Ethernet technology. In some cases, Wi-Fi hot spots or even a hot zone make up the user end of the network, for example in University student centers or libraries where numerous people simultaneously use portable and mobile devices such as notebook and tablet computers to conduct research and carry on communications.

Computers connected to a network are broadly categorized as servers or workstations. Servers are generally not used by humans directly, but rather run continuously to provide “services” to the other computers (and their human users) on the network. Services provided can include printing and faxing, software hosting, file storage and sharing, messaging, data storage and retrieval, complete access control (security) for the network’s resources, and many others.

Workstations are called such because they typically do have a human user which interacts with the network through them. Workstations were traditionally considered a desktop, consisting of a computer, keyboard, display, and mouse, or a laptop, with integrated keyboard, display, and touchpad. With the advent of the tablet computer, and the touch screen devices such as i-Pad and iPhone, our definition of

workstation is quickly evolving to include those devices, because of their ability to interact with the network and utilize network services.

On a single LAN, computers and servers may be connected by cables or wirelessly. Wireless access to a wired network is made possible by wireless access points (WAPs). These WAP devices provide a bridge between computers and networks.

### **Applications of Campus OFC Network for Teaching, Learning and Research:**

- User Access Control: Modern networks almost always have one or more servers which allows centralized management for users and for network resources to which they have access. User credentials on a privately-owned and operated network may be as simple as a user name and password, but with ever-increasing attention to computing security issues, these servers are critical to ensuring that sensitive information is only available to authorized users.
- To access e-resources like Library e-journal subscription from all the departments and hostels.
- Video conference facility.
- Virtual Classroom for live streaming lectures within and outside campus.
- To access Health Information System (HIS) application software.
- To access Management Information System (MIS) application software.
- E-learning facility.
- Computing resources: The Institution can provide access to special purpose computing devices which individual users would not normally own. For example, a network might have high-speed high quality printers strategically located around a campus for instructor or student use.

### **Brief Summary of Campus Optical Network Project:**

As planned in the first phase we have completed the Commissioning of Campus Optical facility for Medical college campus at the cost of Rs 65 Lakh. This has enabled us to connect all academic, research and administrative departments. We have also connected to Nursing and Pharmacy institutes for future expansion.

In the second phase we are planning to extend Data nodes, Wi-Fi and CCTV surveillance network to Academic Departments, Gents Hostel and other key locations of campus using this Campus Optical fiber backbone infrastructure completed in the first phase.

### **Future Roadmap:**

Solution that can be integrated with the existing OFC Network in the future.

Any IP related networking devices

For example:

- 1) VOIP / IP Phones.
- 2) Video Conferencing.
- 3) Network storage & backup.
- 4) Extension of Wi-Fi & IP surveillance Service to other areas in the campus.
- 5) Inter-Campus Connectivity.

Note: These are only few examples but the possibility is endless.

## **Empanelment of Shri B. M. Patil Medical College, Hospital for following State Government and Central Government Health Schemes**

### **CENTRAL GOVERNMENT ORGANIZATION**

- **Bharath Sanchar Nigam Limited - (BSNL)**  
BSNL Serving and retired employees and their dependents covered.  
All treatments medical and surgical procedures covered.  
CGHS rates applicable.
- **Employees State Insurance Corporation - (ESIC)**  
ESIC serving employees and their dependents.  
All treatments medical and surgical procedures covered.  
CGHS rates applicable.
- **Ex-Serviceman Contributory Health Scheme - (ECHS)**  
EX servicemen and their dependents covered.  
All treatments medical and surgical procedures covered.  
CGHS rates applicable.

### **STATE GOVERNMENT ORGANIZATION**

- **Empanelled hospital for State Government Employees under Karnataka State Medical Attendance rules (1963).**  
State Government employees and their dependents covered.  
All treatments medical and surgical procedures covered.  
Our hospital rate list is applicable.
- **Karnataka State Road Transportation Corporation - (KSRTC)**  
KSRTC working employees and their dependents covered.  
All treatments medical and surgical procedures covered.  
Our hospital rate list is applicable.
- **Karnataka State Police Health Welfare Trust (Arogya Bhagya Yojane) -(KSPHWT) - Wings of KSRP, IRB**  
Police department working employees and their dependents coverage.  
All treatments medical and surgical procedures covered.  
CGHS rates applicable.

### **VARIOUS CENTRAL AND STATE GOVERNMENT HEALTH SCHEMES**

- **Yashaswini Farmers Health Care Scheme - (YFHCS)**  
Co-Operative Society Members are covered.  
Only surgical procedures are covered .  
Rate list fixed by Government of Karnataka.
- **Vajpayee Arogya Shree - (VAS)**  
BPL Card holders are covered.  
Only surgical procedures are covered.  
Rate list fixed by Government of Karnataka

- **Thayi Bhagya - (TBS)**  
BPL Card holders of pregnant women are covered.  
Only delivery and LSCS covered.  
Rate list fixed by Government of Karnataka.
- **Rastriya Swasthya Bima Yojana - (RSBY)**  
BPL and Unorganised sector labourers are covered.  
All treatments medical and surgical procedures covered.  
CGHS rates applicable.
- **Balasanjeevini Scheme - (BS)**  
0-6 years BPL childrens covered.  
All treatments medical and surgical procedures covered.  
Our hospital rates applicable.
- **Revised National Tuberculosis Programme (RNTCP)**  
TB patients are covered.  
Only investigation and drugs covered.  
Cost born by Government of Karnataka.
- **Integrated Counseling & Testing Centre (ICTC) /  
Prevention of Parent to Child Transmission (PPTCT) Centre**  
All patients are covered.  
Only investigation covered.  
Cost born by Government of Karnataka.
- **Universal Immunization Programme (UIP)**  
All children covered.  
Only immunization provided.  
Cost born by Government of India.
- **District Disability Rehabilitation Centre (DDRC)**  
Persons with visual, hearing, speech, locomotor and mental disabilities are covered.  
Medical, Surgical and apparatus covered.  
Cost born by Government of India.
- **Jyoti Sanjeevini Scheme (JSS)**  
State Government employees and their dependents covered.  
Only Surgical procedures are covered.  
Cost born by Government of Karnataka  
CGHS rates applicable.
- **Rajeev Arogya Bhagya Scheme (RAB)**  
Only APL card holders are covered.  
Only Surgical procedures are covered.  
Cost born by Government of Karnataka
- **Mukhyamantri Santwana - 'Harish' Scheme (MSS)**  
All the road traffic accident victims, who meet with accidents on the roads of Karnataka,  
irrespective of BPL/APL status, state or nataionality.

## CENTRAL RESEARCH LABORATORY

The Central Research Laboratory (CRL) in medical college is built to provide teaching staff, researchers and graduate students with easy access to high end research instruments. For the further development of modern medicine, it is indispensable to be fully equipped with advanced technologies such as medical, analytical and information devices, and to utilize them in a systematic manner.

The CRL is established in 2014 in Smt. Bangaramma Sajjan campus with the financial support from BLDE University. The primary purpose of the CRL is to support research activities of the faculty, Ph.D. scholars, PG students and UG students by providing technical assistance and access to advanced and high end scientific instruments. The secondary purpose of CRL is also to organize training programs and workshops/seminars for staff and research scholars in the focused areas of research. The CRL with 1500 Sq. feet area provides sufficient space for multidisciplinary research. Our Honorable President Dr. M. B. Patil and Honorable Vice-Chancellor Dr. B. G. Mulimani are very kind enough to encourage the research activities in the university.

## SKILLS LABORATORY

Surgical specialty has progressed in leaps and bounds in the last 3 decades. With the advent of highly technical investigative and therapeutic tool surgical procedures have become highly specific, precise with reduced morbidity. The modern doctor provides effective care only by using these tools. Effective training is required before a doctor can use these tools. Among the three major domains of learning for a doctor, viz. Knowledge, Skills and ethics, knowledge and ethics are learnt relatively easily by various teaching/learning methods with existing facilities. Learning skills, however, is a major challenge. It is a challenge because

- Opportunities for learning are limited
- Safety of patients during training is a concern
- Patient expectations are high, with a reluctance to let trainees do procedures.
- Honing the skills on patients directly is a problem

Hence, it is important to impart basic skills in the laboratory/ Training Centre environment and then allow the reasonably trained student to hone his skills further, on a patient. Basic Surgical Skills Centre (BSSC) would meet this requirement.

This need has been realized for many years in western countries. Many countries mandate a formal certificate in Basic Surgical Skills before allowing students to take postgraduate examinations.

Beneficiaries:

1. MBBS Students
2. MD/MS Students
3. Nursing Students (Diploma, B.Sc and M.Sc)
4. OT Technologists

[Any individual involved in patient care in most of the surgical/critical care will be benefitted.]

Postgraduates need advanced training in surgical skills including Laparoscopic surgical skills; Postgraduates from various surgical disciplines would need a common set surgical skills like dissection techniques, suturing, knot tying, laparoscopic skills, wound management skills etc.

This term postgraduate would also encompass many ‘medical’ specialities undertaking invasive procedures like insertion of chest drains, pacemakers, liver biopsies etc.

This centre functions as nodal centre for training not only our University students but is also planning to include students of other institutes as well in this academic year.

With these priorities in mind this centre was planned and established.

### Total number trained in from April 2016 to March 2017 are 290

To assess the retention of skills learnt and outcome of the activity, a retention test in OSCE format was held for two batches of 1<sup>st</sup> year postgraduates of surgical specialties. In total 25, 1<sup>st</sup> year Postgraduate students attended Retention test on 30/01/2016 & 22/12/2016

This year, apart from our own students, 04 Postgraduate students from S. Nijalingappa Medical College Bagalkot & 07 Postgraduate students from Mahadevappa Rampure Medical College, Kalaburagi attended the Basic Surgical Skills workshop in BLDE University's Clinical Skills Laboratory held for postgraduates on 26<sup>th</sup> & 27<sup>th</sup> August 2016 which included wet lab on intestinal anastomosis and tendon repair.

25, Wind Mill plant workers with security personnel, Savalasang were trained in Basic Life Support on 24 /08/2016 by resource persons of Dept of Anaesthesia.

35, 10<sup>th</sup> standard students of Hidkal Dam, successfully underwent training in the Basic Life Support on 25/10/2016, by Asst. Professor of Anaesthesia & Skills Lab Resource Person Dr. Shivanand L. K.

As a part of training and improving skills in critical care, a workshop on hands on training in managing critical care was arranged and 140, delegates were trained during KSOGA State Level Conference in hosted by Dept of OBGY , BLDEU's Shri. B. M. Patil Medical College, Vijayapura.

**Research Focus:**

Department of Physiology has established “*Laboratory of Vascular Physiology & Medicine*” under the supervision of Professor Kusal Das. This laboratory is working extensively on both human and animal model to explore and understand physiological basis of clinical acumen to vascular integrity. It has a specialized ‘ELECTROPHYSIOLOGY UNIT’. The focus of the Vascular Physiology Lab is studying vascular function/dysfunction in healthy and diseased states, with particular emphasis on chronic cardiovascular diseases, diabetes mellitus. Additionally, vascular responses to exercise and diet are studied and influences of Yoga and life style intervention on vascular health. A variety of techniques are utilized to examine macro- and microvascular function as well as arterial stiffness in humans and animal models. The laboratory also devotes itself to carry out different research projects on environmental health, cardiovascular health, respiratory health to functional modulation in different exercise induced interventional models with their molecular signalling pathways for both human and animal. The laboratory has a ‘General’ and ‘Electro-Physiology’ unit. The laboratory takes care of critical experimental protocol on rats and mice where cardiovascular, vascular, respiratory and neurological different parameters can be analyzed by both non invasive and invasive conditions. Laboratory is also capable to evaluate various cardiovascular histological analysis with the help of specialized software.

The overall mission of the Vascular Physiology & Medicine Lab in the Department of Physiology is to determine the mechanisms contributing to the development of vascular dysfunction with aging, Metabolic syndrome, diabetes, hypertension etc. Our lab uses integrative experimental approaches to assess vascular function of peripheral arteries, stiffness and hemodynamics of the arteries of human.

**Objectives:**

We have focused interest in translating basic science findings with experimental models to clinically relevant treatments in humans and testing the efficacy of various pharmacological and lifestyle interventions in humans at high risk for developing cardiovascular diseases.

### Funding:

Currently the laboratory has two extramural projects (DRDO, Govt of India & VGST, Govt. of Karnataka) in its credit. The Laboratory is also having a full time Junior Research Fellow, supported by DRDO, Ministry of Defence, Government of India besides an expert vascular physiologist Dr.Sartish G. Patil, Assistant Professor of Physiology. Beside this the laboratory also support in running Yoga based cardiac rehabilitation trial funded by ICMR-MRC in collaboration with Centre for Chronic Disease Control (CCDC), New Delhi.

## GENETICS LABORATORY

Genetics Laboratory

Cell Culture Preparation Room

North Karnataka has unique culture, customs and socio demography. Consanguineous marriage is a traditional practice in many communities around the world. Consanguineous marriage continues to be common due to tradition & socioeconomic factors. In addition, we come across many disorders related to genetic counseling are necessary to improve health care. As a Health Science University, genetic analysis, detection of genetic abnormalities and research into untouched domains is equally important function. With these issues as area of focus, we have established the Genetics Laboratory in the department of Anatomy on October 2015 with the primary objective of Chromosome analysis & Genetic Counseling. This is the first kind of Genetics Lab in this part of Karnataka.

### Goal

To be a centre of excellence in human genetics which conducts research, trains researchers, provides advanced diagnostic & counseling services to the needy.

### Objectives

- To understand the basic research in human genetics, molecular genetic basis of chromosomal, neurological, psychiatric & other rare genetic disorders.
- To explore the molecular biological basis of growth factors.
- To train students, staff and researcher in molecular genetic research methodologies.
- To provide advanced diagnostic service and genetic counseling to the patients and their families.

### Vision & Mission

To gain excellence in the areas of Cell culture, Molecular Genetics and Molecular Diagnosis. Perform advance research in Genetic aspects of disorders .Impart training on genetic research methodologies and molecular genetic platforms .Provide Genetic diagnostic testing and genetic counseling.

### Research Work at Genetics Laboratory

Chromosome analysis is also called karyotyping, it is a technique that allows geneticists to visualize chromosomes under a microscope. The chromosomes can be seen using proper extraction and

staining techniques when the chromosomes are in the metaphase portion of the cell cycle. Detecting chromosomal abnormalities is important for prenatal diagnosis, detection of carrier status for certain genetic diseases or traits, and for general diagnostic purposes.

### **Purpose of Karyotyping:**

Karyotyping is performed to review the genetic sequencing of a person to make sure that the person does not have defective genetic material, which could lead to serious deformities or mutations that would affect the development of a person or otherwise affect the person negatively throughout their lives.

Laminar Airflow and CO<sub>2</sub> Incubator

### **Objectives:**

- To demonstrate a micro technique for reliable chromosomal analysis of leucocytes obtained from peripheral blood.
- To prepare a karyotype from the chromosomes of human male or female
- To use the Karyotyping techniques for diagnosing a chromosomal disorder
- A karyotype can be used to visualize abnormalities in the chromosomes, such as an incorrect number of chromosomes, deletions, insertions, or translocations of DNA

### **Laboratory Equipments:**

- Laminar Air Flow
- Co<sub>2</sub> Incubator
- Olympus microscope with GenASIs Software
- Refrigerator
- Remi Centrifuge
- Water Bath
- Digital Weighing Balance
- Slide Chamber
- Hot Plate

### Chromosomal analysis can be carried out for following disorders

- Down's Syndrome with trisomy 21 (47, XY, +21)
- Patau Syndrome with Trisomy 13, XX
- Edwards Syndrome with trisomy 18 (47, XY, +18)
- Klinefelter's syndrome with a 47, XXY

Chromosomes Analysis with the help of Olympus microscope with Genesis Software

### Genetic Counseling

Genetic Counseling is a type of Counseling where it requires the information of genetic disorder regarding etiology, its presentation, treatment options, prognosis, mechanism of inheritance, prevention and recurrence risk for future problems, wherever possible.

### Purpose of Genetic Counseling

- Consanguinity
- Multifactorial Disorders
- Abnormal Chromosomal Reports
- Family / Genetic Disorders
- History of Multiple Congenital Anomalies
- Genetic Disorders
- Pre-conceptional Counseling
- Premarital Counseling

### Future plan of Genetics Laboratory

A part from karyotyping other Molecular work will be carried out in future in the Genetics Laboratory, these molecular works will be related to different genetic disorders like

- Breast Cancer
- Leukemia
- Diabetes
- Parkinson's disease & other neurological disorders
- Thalassemia & Rare Genetic Disorders like Haemidystonia, SRD Syndrome

Digital subtraction angiography (DSA) is a new radiographic technology used in diagnosing vascular disease.

Computer assisted radiographic angiography that permits visualization of vascular structures without super imposed bone and soft tissue densities; subtraction of images made before and after contrast injection removes structures not enhanced by the contrast medium. Other image processing can be performed. Contrast material may be injected intravenously or in a lower than usual amount intra arterially it is a type of fluoroscopy technique used to clearly visualize blood vessels in a bony or dense soft tissue environment. Images are produced using contrast medium by subtracting a ‘pre-contrast image’ or the mask from later images. Hence the term ‘digital subtraction angiography’.

In traditional angiography, images are acquired by exposing an area of interest with x-rays while injecting contrast medium into the blood vessels. The image obtained include all overlying structure besides the blood vessels in the area. This is useful for determining anatomical position and variations but unhelpful for visualizing blood vessels accurately

In order to remove these distracting structures to see the vessels better, first a mask image is acquired. The mask image is simply an image of the same area before the contrast is administered. The radiological equipment will then keep producing images of the same area, taking all subsequent images away from the original ‘mask’ image.

**DSA is primarily used to image blood vessels. It is useful in the diagnosis and treatment of:**

Arterial and venous occlusions, including carotid artery stenosis, pulmonary embolisms and acute limb ischemia.

Arterial stenosis, which is particularly useful for potential renal donors in detecting renal artery stenosis. DSA is the gold standard investigation for renal artery stenosis.

Cerebral aneurysms and arteriovenous malformations (AVM).

### More common use of DSA

**Angioplasty** - This is a treatment to open narrowings or blockages of arteries using a small balloon. It would normally be used in the legs or heart, but can be used in any artery of the body.

**Arterial Stent** - This is a treatment to open blockages of arteries using an expanding metal mesh which remains in place to hold the artery open. This is used in the heart, pelvis and abdomen.

**Biliary Procedures** - This is treatment to relieve a blockage of the bile duct draining the liver And allow it to drain properly

**Coronary Angiogram** - This is an x-ray of the arteries that supply blood to the heart.

**Femoral Angiogram** - This is an x-ray of the arteries which supply blood to the legs

**Nephrostomy** - This is a treatment to relieve pain from a blocked kidney. A tube is inserted into the kidney to

### Future of DSA

DSA is being used less and less routinely in imaging departments. It is being replaced by computed tomography angiography (CTA), which can produce 3D images through a test which is less invasive and stressful for the patient. However most CTA cannot define or distinguish minor stenosis and ulceration from normal vessels and have difficulty in assessing remote areas of the circulation

Hence DSA is still considered the gold standard for arterial imaging. And as far as interventional radiology is concerned DSA forms the main pillar.

# INAUGURATIONS

## INAUGURATION OF GENETICS LABORATORY

Prof. Pramod B. Gai, Director, KIDNAR and Vice Chancellor, Karnatak University, Dharwad inaugurated the Genetics Laboratory on June 11, 2016. On this occasion Prof. B. G. Mulimani, Hon'ble Vice Chancellor, Dr. J. G. Ambekar, Registrar, Dr. V. T. Kalyanappagol, Medical Superintendent, Dr. Tejaswini Vallabha, Vice Principal and faculty members were also present.

Plantation by the Chief Guest on the occasion of the Genetics Laboratory inauguration

## INAUGURATION OF DIGITALLY INTEGRATED CAMPUS NETWORK ON OPTICAL FIBRES

Dr. M. B. Patil, Hon'ble President, BLDE University inaugurated the Digital Data Centre, on June 04, 2016. On this, occasion Prof. B. G. Mulimani, Hon'ble Vice Chancellor, Dr. J. G. Ambekar, Registrar, Dr. M. S. Biradar, Dean, FoM. & Principal, Dr. V. T. Kalyanappagol, Medical Superintendent, Mr. Kiran Tigadi, IT Head I/c and faculty members were also present.

Hon'ble President Dr. M. B. Patil interacting with Mr. Kiran Tigadi, IT Head I/C, BLDE University about the Digital Data Centre.

## INAUGURATION OF BUJHS

Dr. M. B. Patil, Hon'ble President, BLDE University inaugurated BLDE University Journal of Health Science, on June 04, 2016. On this event, Prof. B. G. Mulimani, Hon'ble Vice-Chancellor, Dr. J. G. Ambekar, Registrar, Dr. M. S. Biradar, Dean, FoM. & Principal, Dr. Tejaswini Vallabha, Vice Principal, Dr. V. T. Kalyanappagol, Medical Superintendent, Prof. Kusal Das, Professor, Dept. of Physiology and faculty members were present.

Dr. M. B. Patil, Hon'ble President, BLDE University, Vijayapura released the first issue of BLDE University Journal of Health Science.

## BOOK EXHIBITION

The Medical Books Exhibition was inaugurated by Dr. Akram Naikawadi, Dean, Research & Development & HOD of Dept. of Pharmacology. Dr. Shekhar H. P. Chief Librarian, Faculty members, students are participated.

Central Library of BLDE University was organized “Medical Books Exhibition” on 13-15 June 2016 at the Auditorium, Central Library premises. Six leading book publishers and distributors were participated in the exhibition.

## Alumni Association Foundation Day Lecture

BLDE University organized “Alumni Association Foundation Day Lecture” on October 14, 2016. Invited Chief Guest Prof. S. K. Saidapur, Director, Higher Education Academy, Dharwad & Former Vice-Chancellor, Karnatak University, Dharwad inaugurated the event. Prof. B. G. Mulimani, Chief Advisor, Dr. J. G. Ambekar, Registrar, Dr. Tejaswini Vallabha, Vice-Principal, Dr. Vijaykumar T. Kalyanappagol, Medical Superintendent, Dr. Dayanand G. Gannur, Professor & HoD, Department of Forensic Medicine and Faculty Members were present.

Prof. S. K. Saidapur, Director, Higher Education Academy, Dharwad & Former Vice-Chancellor, Karnatak University, Dharwad Lighting the Lamp.

Prof. S. K. Saidapur, Director, Higher Education Academy, Dharwad & Former Vice-Chancellor, Karnatak University, Dharwad delivered Guest Lecture on “Origin and Evolution of Human Diseases”

Invited Chief Guest Prof. S. K. Saidapur felicitated on behalf of BLDE University.

Dr. Rajesh Honnutagi, Vice-President of Alumni Association, welcomed the gathering, Dr. U. C. Nuchhi, Executive Committee Member, Alumni Association introduced the Chief Guest and Dr. Tejaswini Vallabh, Vice-Principal, Shri B. M. Patil Medical College presided over the function delivered the presidential remark.

Prof. B. G. Mulimani, Chief Advisor, Dr. J. G. Ambekar, Registrar and Dr. V. T. Kallaynappagol, Medical Superintendent were graced the occasion .

The event concluded with proposal of Vote of Thanks by Dr. Dayanand G. Gannur, Secretary, Alumni Association.

## Inauguration of Research Club

Prof. B. G. Mulimani, Chief Advisor, BLDE University & Association officially inaugurated the Research Club of Physiology Department on January 28, 2017. Prof. M. S. Biradar, Hon'ble Vice-Chancellor, Dr. J. G. Ambekar, Registrar, and Faculty Members of the University were present.

## **TAKING CHARGE OF VICE-CHANCELLOR**

## HANDING OVER THE CHARGE BY HON'BLE VICE-CHANCELLOR

Handing over the charge of Vice-Chancellor by Prof. B. G. Mulimani, Hon'ble Vice-Chancellor, BLDE University, on June 20, 2016.

The guidance, the leadership and services of Prof B.G.Mulimani sir was acknowledged by the Dean, faculty and nonteaching staff of BLDE University. The members wholeheartedly thanked him for all his help and guidance during NAAC Assessment, MCI Assessments and his contribution towards growth of the University holistically.

He was the idea and source of inspiration and mentor for various student friendly actions, upgrading and strengthening of research activities of the University. He was mainly responsible in developing MOU'S with many reputed Universities and Institutes. Under his guidance, the University realized its potential and started acting on it. University.

## FAREWELL TO PROF. B. G. MULIMANI, HON'BLE VICE-CHANCELLOR

Prof. B. G. Mulimani, Hon'ble Vice Chancellor of BLDE University completed his term. He was felicitated by Shri G. K. Patil, Hon'ble General Secretary, BLDE Association on behalf of the Board of Management of the University. Prof. M. S. Biradar, Dean Faculty of Medicine took charge as I/C Vice-Chancellor.

Felicitations to Prof. B. G. Mulimani, Hon'ble Vice Chancellor, BLDE University.

## TAKING CHARGE OF VICE-CHANCELLOR

Dr. M. S. Biradar, took over as Vice-Chancellor of BLDE University, on August 10, 2016.

Shri G. K. Patil, Hon'ble General Secretary, BLDE Association on behalf of the Board of Management of the University, felicitated. Prof. M. S. Biradar on taking over as Vice-Chancellor, on August 10, 2016. Prof. B.G.Mulimani, Chief Advisor, BLDE University & Association, Dr. J. G. Ambekar, Registrar, and faculty members were also present.

Dr. S. P. Guggarigoudar, Professor, Department of ENT took the charge as Dean, Faculty of Medicine & Principal of BLDE University's Shri B. M. Patil Medical College, Hospital and Research Centre, on 10<sup>th</sup> August 2016. He was felicitated by Dr. M. S. Biradar, Hon'ble Vice-Chancellor, BLDE University. Shri G. K. Patil, Hon'ble General Secretary, BLDE Association, Prof. B.G.Mulimani, Chief Advisor, BLDE University & Association and Dr. J. G. Ambekar, Registrar were also present.

### **Farewell to Dr. B. K. Patil, Asst. Medical Superintendent and others**

Dr. B. K. Patil, Asst. Medical Superintendent, completed his service. He was felicitated by Dr. Vijayaumar T. Kalyanappagol, Medical Superintendent, on behalf of on Hospital Administration. Dr. V. G. Warad, Professor, Department of Medicine took charge as Assistant Medical Superintendent, on December 31, 2016.

Class IV<sup>th</sup> Staff of Hospital were completed their service and felicitated with appreciation on behalf of Hospital Administration, on December 31, 2016. Medical Superintendent, Asst. Medical Superintendent, Asst. Hospital Administrator, Nursing Supervisors and Staff Members also seen.

# **MEMORANDUM OF UNDERSTANDING (MoU)**

## MEMORANDUM OF UNDERSTANDING (MoU)

### MoU with KIDNAR, DHARWAD

Memorandum of Understanding for collaborative research on “**Human Genetics and Molecular Medicine**” was signed between BLDE University, Vijayapura and Karnataka Institute for DNA, Research, Dharwad, Prof.B.G.Mulimani, Hon’ble Vice-Chancellor, BLDE University and Prof Pramod B. Gai, Hon’ble Vice Chancellor, Karnataka University Dharwad signed the MoU on June 11, 2016. Dr.J.G.Ambekar, Registrar, Dr. Tejswini Vallabha, Vice-Principal, Dr.Vijayakumar Kalyanappagol, Medical Superintendent and Faculty Members of BLDE University were Present

occasion Prof. P. B. Gai, Director, KIDNAR & Vice-Chancellor, Karnataka University, Dharwad, Prof. B. G. Mulimani Hon'ble Vice-Chancellor, Dr. J. G. Ambekar, Registrar, BLDE University, Dr. Tejaswini Vallabha, Vice Principal, Dr. Vijayakumar Kalynappgol, Medical Superintendent, Shri B. M. Patil Medical College, Hospital & Research Center, Dr. B. M. Bannur, Head of Department of Anatomy were present.

Dr. B. M. Bannur welcomed the gathering. Dr. B. G. Patil introduced the Chief Guest. Dr. R. S. Bulagouda presented the purpose and objectives of establishing the Genetics Laboratory.

Prof. P. B. Gai addressed the gathering and briefed about the importance of Genetics Laboratory in detecting genetic abnormalities and need for counseling. He has also explained the objectives and working area of the Karnataka Institute of DNA Research, Dharwad.

In his address, Prof. B. G. Mulimani, pointed out various applications of Genetics, in the medical fields and wished that services of Genetic Laboratory in future will be helpful to the society.

Then Dr. Tejaswini Vallabha congratulated and wishes the staff of newly inaugurated Genetics Laboratory, suggested to carry out cytogenetic and molecular research for benefit of the society. Dr. B.S. Patil offered a vote of thanks.

## Research Collaboration with Tulane University

Prof. M. S. Biradar, Vice-Chancellor, BLDE University, Vijayapura signed a Joint Research Collaboration with Hypertension and Renal Centre of Excellence, Tulane University School of Medicine, USA. Prof. Luis Gabriel Navar, Professor, Chair and Director of the centre signed on behalf of Tulane University. Prof. D.S.A. Majid of Tulane University, USA and Prof. Kusal K. Das of BLDE University, Vijayapura are the Principal Collaborating Scientists of the project entitled “*Hypoxia metal exposure and cell signaling pathways: Evaluation of vascular integrity with renal functions in male albino rats supplemented with ascorbate and calcium channel blocker.*” for a period of 3 years.

Exchanging greetings with Dr. L. Lee Hamm, Vice President of Tulane University.

Discussion regarding research collaboration with Prof. Luis Gabriel Navar, Professor, Chair & Director, THRCE, School of Medicine, Tulane University.

Prof. M. S. Biradar, Hon'ble Vice-Chancellor and Prof. Kusal K. Das visited the Laboratory in Department of Pharmacology, Tulane University School of Medicine, where Louis Ignarro discovered Nitric Oxide as EDRF and signal transductor and shared the Nobel Prize with Robert Fuchgort & Ferid Murad in 1998. Prof. D.S.A. Majid, Professor, Department of Physiology, Tulane University School of Medicine accompanied them. Dr.Sarah Lindsey is seen to interact with visiting professors from BLDE University, Vijayapura.

### MoU WITH GIMS, Gadag

Exchanging MoU with the Principal, GIMS, Gadag

Exchanging greetings with the Principal, GIMS, Gadag

Signing MoU with GIMS, Gadag

Memorandum of Understanding for “Utilising facilities for Research and Skills Laboratory” was signed between Gadag Institute of Medical Sciences, Gadag and BLDE University, Vijayapura. Prof. M. S. Biradar, Hon’ble Vice-Chancellor, BLDE University and Dr. S. R. Deshpande, Principal, GIMS, Gadag signed the MoU on March 01, 2017. Dr. S. P. Guggarigoudar, Dean, Faculty of Medicine & Principal, Dr. Tejaswini Vallabha, Chairperson of University Clinical Skills Laboratory & Vice Principal, Mr. Satish. B. Patil, Deputy Registrar, BLDE University and Dr. Ravindra, Prof of Physiology GIMS Gadag were present.

## **BLDE UNIVERSITY SIGNED A MEMORANDUM OF UNDERSTANDING WITH RNTCP, KARNATAKA STATE TB DIVISION, BENGALURU**

Revised National Tuberculosis Control Programme, Karnataka State T.B. Division, Bangaluru and BLDE University, Vijayapura entered into a MoU on July 16, 2016. The MoU was signed by Dr. Gundappa S., District Health & Family Welfare Officer, Vijayapura and Dr.M.S.Biradar, Dean, Faculty of Medicine & Principal BLDE University, Vijayapura. The MoU is signed to control/test/treat Tuberculosis for a period of three years.

# **ADMISSIONS, EXAMINATIONS & CONSELLING**

## ADMISSIONS

The Post Graduate admissions 2017-18 has been completed through PG-NEET-2017 eligible candidates through Centrized Counselling conducted by Karnataka Examination Authority. Out of Total intake 95 only 66 Candidates have taken admission. (Para Clinical-09, Clinical-44 and Diploma-13)

### UG-NEET-2016

The University invited applications from the UG-NEET-2016 Qualified candidates for admission to MBBS course for the academic year 2016-17. Total applications received 6203.

We have conducted First, Second and Casual round counseling for 50% (of intake i.e. 75 seats) All India Quota the first candidate to opt admission is All India Overall Rank No. 10500 and last candidate to opt admission is All India Overall Rank No. 66930.

We have conducted Counselling for 20% (of intake i.e. 30 seats) Karnataka State Quota the first candidate to opt admission is All India Overall Rank No. 36632 and last candidate to opt admission is All India Overall Rank No. 63852.

We have conducted Counselling for 10% (of intake i.e. 15 seats) Vijayapura District Quota the first candidate to opt admission is All India Overall Rank No. 67822. and last candidate to opt admission is All India Overall Rank No. 180659.

We have conducted Counselling for 05% (of intake i.e. 07 seats) Institutional Quota the first candidate to opt admission is All India Overall Rank No. 219448. and last candidate to opt admission is All India Overall Rank No. 407881.

We have conducted Counselling for 15% (of intake i.e. 23 seats) NRI / PIO / FOREIGNERS / OTHERS Quota the first candidate to opt admission is All India Overall Rank No. 113236. and last candidate to opt admission is All India Overall Rank No. 132036.

Note: Vacancies in the Karnataka State-4, Vijayapura District-2, Institutional-2, NRI-9 (Total 17 vacancies) have been filled in the All India Quota Second / Casual Counselling.

## PH.D. 2<sup>nd</sup> OPEN HOUSE

Ph.D., 2<sup>nd</sup> Open House presentation of Dr. Manjunath Salmani, Research Student, Department of Microbiology was organized at Physiology Gallery Hall, on May 25, 2016. Thesis titled on “Seroprevalence and genotyping of Hepatitis C virus among hospital based general population” was presented.

Ph.D., 2<sup>nd</sup> Open House presentation of Mr. Shaikh Hussain, Research Student, Department of Anatomy was organized at Physiology Gallery Hall, on August 11, 2016. Thesis titled on “Effect of nigella sativa seed extract on glucose, lipid profile, liver function tests oxidative stress and histological changes in pancreas, kidney, liver and tibial nerve in normal and streptozotocin induced diabetic rats.” was presented.

Ph.D., 2<sup>nd</sup> Open House presentation of Mrs. Vandali Jyoti, Research Student, Department of Physiology was organized at Physiology Gallery Hall, on August 11, 2016. Thesis titled on “Effect of chronic stress on lactogenesis in human” was presented.

Ph.D., 2<sup>nd</sup> Open House presentation of Mrs. Padmaja T., Research Student, Department of Physiology was organized at Physiology Gallery Hall, on September 29, 2016. Thesis titled on “Maternal myocardial performance in first and second trimester of normal pregnancy and pregnancy with anemia.” was presented.

Ph.D., 2<sup>nd</sup> Open House presentation of Mr. Praveen Patil, Research Student, Department of Physiology was organized at Physiology Gallery Hall, on May 25, 2016. Thesis titled on “Effect of Occupational Exposure on Cardiovascular and Hematological Parameters of Individuals working in Rice Mills around Raichur Urban Area” was presented.

Ph.D. 2<sup>nd</sup> Open House Presentation of Mrs. Rohini, Research Student, department of Anatomy was organized at Physiology Gallery Hall, on February 28, 2017. Thesis titled on “Effect of Anti Stress Drugs (Alprazolam, Fluoxetine and Bisperone) on stress Induced Changes of Brain and other Organ histopathology in male Albino rats.” was presented.

2<sup>nd</sup> Open House Presentation of Mrs. Haseena S, Research Student, Department of Physiology was organized at Physiology Gallery Hall, on February 28, 2017. Thesis titled on “Effect of Nigella sativa seed extract on the Reproductive system in normal and Streptozotocin induced diabetic male rats.” was presented.

## CONFERENCE

## ASSOPICON-2016

Dr. H. A. Ranganath, Former Director, NAAC, Vice-Chancellor, Bangalore University & Prof. IISc Bengaluru, renowned molecular biologist inaugurated Student ASSOPICON-2016, on September 14, 2016. Dr. M. S. Biradar, Vice-Chancellor, Prof. B. G. Mulimani, Chief Advisor, BLDE University & Association, Dr. J. G. Ambekar, Registrar, Dr. S. P. Guggarigoudar, Dean, Faculty of Medicine & Principal, Dr. Manjunath Aithal, Professor & HoD, Prof. Kusal K. Das, Professor, Department of Physiology and faculty members were also present.

Dr. M.S.Biradar, Vice-Chancellor welcoming the Gathering

Prof. B. G. Mulimani, Chief Advisor, addressing Gathering

Prof. Soumyodipta Pyne, Professor, PHFI, Indian Institute of Public Health, Hyderabad and Remote Professor of Broad Institute of MIT & Harvard University, USA, delivering keynote address.

Dr. G. K. Pal, Registrar, Academics JIPMER Pondicherry & Professor of Physiology delivering invited talk.

Dr. Shashi Bala Singh, Director, DIPAS / DRDO, New Delhi, inaugurated ASSOPICON-2016, on September 15, 2016. Dr. M. S. Biradar, Vice-Chancellor, Prof. B. G. Mulimani, Chief Advisor, BLDE University & Association, Dr. J. G. Ambekar, Registrar, Dr. S. P. Guggarigoudar, Dean, Faculty of Medicine & Principal, Dr. Manjunath Aithal, Professor & HoD, Prof. Kusal K. Das, Professor, Department of Physiology and faculty members were also present.

Miss. Sahana S. Chaukimath, IInd Phase MBBS student, received 1<sup>st</sup> Prize for “Best Paper Presentation” on the topic “Association of metabolic risk factors in major depressive disorder” Under Undergraduate student section in 3<sup>rd</sup> Annual Conference ASSOPICON-2016, BLDE University, Vijayapura held on September 16, 2016.

Mr. Ishwar B Bagoji received 1<sup>st</sup> Prize for “Best Poster Presentation” on the topic “Effect of mucuna pruriense seed and withania somnifera root extract on stress induced alteration of testicular pathophysiology in male albino rats” Under PG/PHD student section in 3<sup>rd</sup> Annual Conference ASSOPICON-2016, BLDE University, Vijayapura held on September 16, 2016.

Mr. Harish Bhat K. won 2<sup>nd</sup> Prize for “Best Poster Presentation” on the topic “Correlation between expression of Hypoxia induced factors and Bacterial burden in Pulmonary Tuberculosis” Under PG/ PHD student section in 3<sup>rd</sup> Annual Conference ASSOPICON-2016, BLDE University, Vijayapura held on September 16, 2016.

Dr. G. A. Hadimani, Lecturer, Dept of Anatomy received 2<sup>nd</sup> Prize for “Best Poster Presentation” on the topic “Suppression of indomethacin toxicities by black tea extract polyphenols on male reproductive profile in albino rats” Under Staff Section in 3<sup>rd</sup> Annual Conference ASSOPICON-2016, BLDE University, Vijayapura held on September 16, 2016.

Dignitaries with Audience at ASSOPICON-2016

Department of Physiology, BLDE University, Shri B. M. Patil Medical College, Hospital and Research Centre, Vijayapura organized 3<sup>rd</sup> Annual Conference of Association of Physiologists of India during 14<sup>th</sup>-17<sup>th</sup> September-2016 in Central Library Auditorium with theme “Physiology Decodes Novelty of Vascular Sciences” 14<sup>th</sup> Sept-2016 (Wednesday), one full day was totally dedicated to Undergraduate students of health sciences as “Student ASSOPICON 2016, attended by more than 300 UG Students from all over the country of various disciplines like medicine, Dentistry, Pharmacy, AYUSH etc. This was the first time in the country, a National Medical Conference had dedicated entire one day for UG students. The students participated in the meeting as delegates, presented their scientific research or non-research papers (100 free papers were presented), Joined in panel discussions with international medical professor and participated in research methodology workshop. Sessions of free paper presentations were chaired by Post Graduate students. The students were given awards for best paper and poster presentations.

Prof. H. A. Ranganath, Former NAAC Director, Vice-Chancellor of Bangalore University, Professor at IISC, Bangalore and renowned molecular biologist was the chief guest of student ASSOPICON. In his speech, he stressed on importance of research curriculum in UG programme in India. He also stressed the need on multidisciplinary approach in each area of higher science learning that to be incorporated from UG courses itself. Prof Soumyodipta Pyne from PHFI and remote Professor at Broad Institute of MIT and Harvard University, USA (Guest of Honuor) in his keynote address narrated regarding medical research programme in western universities for students and its impact on future development of medical sciences. Dr. M. S. Biradar, Vice-Chancellor, BLDE University, Dr. B. G. Mulimani, Chief Adviser, BLDE University and BLDE Association, Dr. G. K. Pal, Registrar, JIPMER, Puducherry, Dr. T. R. Raju, NIMHANS, Bangaluru, Dr. Salim Dhundsi, Dean, Al. amen Medical College, Vijayapur, Dr. S. P. Guggarigoudar, Dean Faculty of Medicine, Dr. J. G. Ambekar, Registrar, BLDE University, Dr. Tejaswini Vallabh, Vice Principal, Dr. Vijayakumar K, Medical Superintendent,

Prof. Kusal K. Das, Convener, Dr. Manjunatha Aithala, Organizing Secretary, Dr. Lata Mullur, Joint organizing Secretary and Dr. Laxmi Tellur, Student Secretary were present during this student conference. The student conference was concluded by valedictory function in the evening hours. Pre conference workshop on “Writing a research paper for publication in PUBMED journal” was held for registered delegates in the afternoon of 14<sup>th</sup> September-2016. JIPMER team led by Dr. G. K. Pal conducted this programme in A S Paintal Hall of Department of Physiology. On second day, 15<sup>th</sup> September-2016 (Thursday), Conference was inaugurated by Chief guest, Dr. Shashi Bala Singh, Director, DIPAS/ DRDO, New Delhi. In her inaugural speech following release of souvenir and CD Containing proceeding, She stressed on need for undertaking deeper research in the field of vascular and translational Physiology in India. She pointed out that Research done Physiology will have a bearing on all other branches of Medical Sciences. She lamented that there are no specialized laboratories for conducting research in the field of vascular physiology in India. She urged Medical Institutions to contemplate on establishing such laboratories that would help in researchers to undertake studies. She revealed that translational Physiology that in vogue in foreign countries since 2002, has not yet come to India. She exhorted Medical fraternity to join Indian Army, so that they could serve the nation along with serving the ill.

Dr. M. S. Biradar, Vice-Chancellor, BLDE University, Prof. B. G. Mulimani, Chief adviser, BLDE University and BLDE Association, Dr. S. P. Guggarigoudar, Dean Faculty of Medicine, Dr. J. G. Ambekar, Registrar, BLDE University graced the occasion. Dr. S. B. Deshpande, President, ASSOPICON, Dr. G. K. Pal, Secretary ASSOPICON, Dr. Tejaswini Vallabh, Vice Principal, Dr. Vijayakumar, Medical Superintendent, Prof. Kusal K. Das, Convener, Dr. Manjunatha Aithala, Organizing Secretary and Dr. Lata Mullur, Joint organizing secretary were present during the programme. The main Conference from 15<sup>th</sup>-17<sup>th</sup> September-2016 was attended by 400 delegates from all over India and also from U.S.A., Nepal etc.

A few illustrious speakers were namely : Prof. M Fahim, Univ. of Delhi; Prof. S Pyne, Harvard University, USA ; Prof. G. K. Pal, JIMER, Puducherry ; Prof. S. B. Deshpande, BHU, Varanasi ; Prof. Antony Gromes, University of Calcutta; Prof Sathya Subramani, CMC, Vellore ; Prof. R. K. Yadav, AIIMS, Delhi ; Prof. D. Chakraborti, IIT, Guwahati, Prof. Latika Mohan, AIIMS, Rishikesh and many more.

The Conference had 4 Key Note speakers, 7 Plenary Speakers and 35 other invited speakers. The conference also had 7 symposia that included Medical Education, Vascular Science, Neuroscience, Nanoscience, Yoga and Exercise, Ergonomics, Design and Environment. Six research oration awardees 2016 of Association of Physiologists of India also delivered their lecture in the conference. 110 free research papers were presented as oral and poster by Physiologists. Awards were given to best oral and poster presenters also. The conference was concluded by valedictory function on 17<sup>th</sup> September-2016 afternoon.

Apart from BLDE University, entire conference was supported by ICMR, DST, and DRDO Conference was endorsed by IUPS, UGC, NAAC and MCI.

KMC awarded 2 credit hours to pre conference workshop and 4 credit hours to conference. The conference has benefited the Institution by virtue of developing MoU for research works and exchange programmes with Universities and Organizations of International Repute.

## 27th KARNATAKA STATE OBSTETRIC & GYNAECOLOGY ASSOCIATION 2016

Dr. M. B. Patil, Hon'ble President of the BLDE University and Dr. H. Nagaraj, President, KSOGA inaugurated 27<sup>th</sup> KSOGA-2016 Conference, on November 25, 2016. Prof. M. S. Biradar, Hon'ble Vice-Chancellor, BLDE University, Dr. Vijayakumar Kalyanappagol, Medical Superintendent, SBMPMCH&RC, Dr. M. G. Hiremath, Patron & Founder Secretary, KSOGA, Office Bearers of KSOGA and Faculty Members of BLDE University were also present.

Dr. M. B. Patil, Hon'ble President of the BLDE University felicitated by Dr. Vidya A. Thobbi, Organizing Chairperson on behalf of Karnataka State Obstetrics and Gynecology Association.

Dr. M. S. Biradar, Hon'ble Vice-Chancellor  
University Welcoming the gathering.

## CONFERENCE REPORT

### Adolescent Health Walk and Awareness Programme:

Realizing the social responsibility of doctors, an awareness programme for adolescent girls aged 13 to 19 years was held. This programme was attended by 750 Girls from different Schools and PU Colleges of Vijayapura. Topics like adolescent health, mental health, handling of stress, handling of examination fear, healthy eating, the harms of social media dependence etc in the form of lectures, role plays, short skits and tribates etc, were brought to the young adults in a language and form that they found easy to understand and assimilate. The feedback from the students was favorable and they voted for the organization of more such programmes.

### BETI BACHAO, BETI PADHAO:

This public forum was in the form of a short talk by Dr Shanta Durge, a Gynecologist and Social activist from Basava Kalyan. This was followed by a Panel discussion in which people from various fields participated- The DHO, District Vijayapura. Prof Sabiha Gowda the Hon'ble Vice Chancellor, Karnataka State Womens' University, Prof Suresh Naik, Prof Sunandamma, HOD Women Studies, Dr Ramesh Mankare, Consultant Radiologist, Smt Sunanda Tolabandi of NGO and Miss Abhilasha, Honors Student of Journalism and Mass Communication participated as panelists. Gynecologists, Dr B A Sasnur and Dr Geetha Chaudhari were also part of the panel discussion.

The panel discussion was a well conducted one and exchange of important ideas was accompanied by the dissemination of important social message to the public regarding the one single, most important truth that needs to be understood and acknowledged by everyone- "Women survive-the world survives" The forum was also a well attended and well appreciated programme.

### WORKSHOP:

The next day, 25<sup>th</sup> November, was dedicated to pre conference workshops. Again, the most pressing matters on hand for all of us as doctors in general, and obstetricians and providers of health for women, in particular, were the focus of two of the three simultaneously running workshops-

1. **Labor-** How to conduct safe deliveries, how to recognize impending complications, how to avoid cesarean sections by using and training in the use of safe and useful instruments and methods etc were the topics in focus in this workshop. Hands on training and teaching were done with the help of advanced mannekins, of Skills laboratory of BLDE University.
2. **Critical Care in Obstetrics-** This workshop basically focused on saving the life of the seriously ill mother. There was discussion and hands on training on all the measures that need to be taken in the eventuality that a pregnant woman does become critically ill. It's a less recognized fact that sometimes, despite the best care given to a woman during delivery, an unseen, unpredicted, unavoidable complication may occur, and hence EVERY care giver should be vigilant and prepared to handle all such contingencies for good outcome.
3. **Urogynecology-** This was **The Live Operative Workshop**, which featured the operative experience of well known Gynecologists and Urogynecologists from Karnataka as well as other states-Andhra Pradesh and Odisha. The surgeries performed were some of the rare surgeries which the delegates needed to see, as the type of cases showcased here are on the rise, and it was a rare opportunity for everyone to learn from the experts. This workshop itself attracted 200 plus delegates.

The next two days were dedicated to scientific deliberations between the delegates and stalwarts in OBG. There were 175 faculties from Karnataka State, 30 faculties from outside Karnataka (Delhi, Mumbai, Pune, Sangli, Ahmedabad, Odisha and Coimbatore) International faculty from UK.

The scientific discussions were described as "A scientific feast" by many of the delegates. An intensive 9 am to 5 pm schedule was maintained.

280 Delegates presented Free Papers and Posters in 12 Sessions/day, for two days, that is, 24 total paper presenting sessions, 120 Posters were presented at the conference.

**Jewel in the Crown of conference was Pujya Shri Shri Siddeshwar Swamiji, Jnyanayogashram, Vijayapura.**

It was a soul stirring address by the revered Swamiji, which left the audience spell bound and also encouraged them to do a little soul searching to find peace within themselves. The audience was left deeply satisfied and happy after the short discourse by Swamiji.

The Adolescent Awareness Programme was also blessed by another pious presence-**Pujya Shri Shri Nirbhayanand Saraswati Swamiji, Shri Ramakrishna Ashram, Vijayapura.** Swamiji's address was directed towards the adolescent girls and focused on Adolescent and Woman empowerment. Last, but not the least, the young and dynamic leader of the BLDE Association, Dr. M. B. Patil, Minister for Water Resources, Karnataka State and Hon'ble President, BLDE Association, and the Leader of the Organising Team, graciously attended the Conference and its Inauguration despite many official and personal commitments at the same time, and was pleased with the arrangements and the gathering.
