Editors Note....

Greetings from the editorial team

Happy and prosperous Ugadi to all the readers.

2016 began with good academic activities. In addition to the regular responsibilities of conduction of entrance tests, facing inspections and examinations, the students and faculty have left no stone unturned in maintaining the academic tempo. This trimester saw Mid Term Conference of Geriatrics, an upcoming sub specialty making us aware of new challenges in the care of elderly. We also had visiting dignitaries who guided us in new research areas. Overall, it was fruitful trimester.

Regards,

Dr. Tejaswini Vallabha
Chief Editor

Student Writes...

I with immense pride say that I got PG seat where I completed my UG. It's a great and interesting journey for me from my UG life to PG life.

Yah! I am speaking about BLDEU's Shri B. M. Patil Medical College. This is one of the oldest and famous colleges in North Karnataka. The college has wide range of students from many states and even from different countries.

The environment of the college is so friendly that students enjoy every moment and learn many things. Our college is platform where students are boosted with professional skills to enter the competitive world of Medicine.

The lectures are so knowledgeable that students are easily conveyed with the subjects. Our college has achieved high academic standards which has enhanced the student participation in acquiring knowledge about medicine, the way of practicing and applying the knowledge of practice in the society to achieve definite outcomes of health,. The way of approaching to the patients with proper care and medication is a science which we learnt through many of the activities and skills provided by the college.

The provision of standard education is quiet a difficult task, but it is achieved by this college with a motto of proper output of knowledge and effective health care.

There are several departments which a work to meet the high quality of education. Speaking of our department, Pharmacology, the Professors/Lecturers are co-operative & help to learn the subject in depth and knowledge about drugs. We have been provided with highly equipped laboratories which are the milestone for any research to be carried out.

Last but not the least, the students are provided with many opportunities to participate in various cultural & sports events for holistic development.
