Editor's Note....

Dear Readers,

The COVID-19 pandemic has accounted for tens of thousands of deaths and will affect millions more people who will survive. There will be time to mourn the victims and care for the survivors. But it is also time to recognize the heroes who have emerged so far. The most significant challenges of Hospitals are centered on testing and caring for patients with known or suspected COVID-19 and keeping staff safe. The substantial challenge of maintaining, expanding medical facilities with capacity to treat patients with COVID-19 is tremendous task. Anticipated shortages of ventilators, expanding facility and financial concerns are big challenge for hospitals. Let us address challenges unitedly raised by the pandemic for hospitals.

Regards,

Dr.Sumangala Patil
Chief Editor

Shraddhanjali

Born: 01-06-1955

**Late Prof. Dr. M. S. Biradar
Hon'ble Vice-Chancellor**

Death: 12-05-2021

A Gold Medalist throughout Academic Career, a dedicated Role Model teacher of Medicine, a renowned clinician, who served a large community with compassion, particularly the poor and the rural people, A man of great character integrated with human and ethical values, Dr. Mallanagouda Shivanagouda Biradar, was a Humanitarian Extraordinaire.

Born and brought up in a family of farmers and studied in a Government School. With his own talent, abilities and unwavering grit to serve society became a Doctor par Excellence. He joined BLDE in 1991 as a Professor of Medicine, went on to serve as Vice-Principal, Principal, then the topmost post of Vice-Chancellor of BLDE (Deemed to be University) and work hard to put BLDE University on International map.

Until his last breath, served the patients with utmost love and care. His sudden demise has shocked the medical fraternity and BLDE family. Our deepest condolences to the family of the renowned doctor and a great teacher Dr. M. S. Biradar.

Department of Community Medicine and NSS Unit of BLDE (Deemed to be University) in collaboration District Health & Family Welfare Department organized “COVID Vaccination Programme” at Urban Health Training Centre (UHTC), Chandabawadi on May 27, 2021.

COVID-19 Vaccination Drive conducted at UHTC, Chandabawadi

Student Writes...

To study medicine and become a good doctor was my childhood ambition. I was so much excited when I got an MBBS seat in the first allotment itself. Soon I packed my bags to Vijayapura, which was once the glorious capital city of Bijapur sultanate this added my joy being lucky to study in an ancient city like this. But when I saw the original picture of vijayapura. I got really depressed. A grimy and dusty place, the bad roads, the thickly packed streets, the unbearable temperature and hot winds. I felt like standing in a desert. How I'm going to spend 5 years of my life here? with all those worries I reached the BLDE campus gate. On entering the campus I was astonished seeing the greenery of the campus. A campus filled with trees, plants and flowers; truly a Vrindavan in the middle of a desert. In the middle of the campus stood the main building of Shri B. M. Patil medical college with all its pride and architectural beauty. At that very moment I realized that, I came to the right place, a place where I can fulfill my dreams.

My two years in this college was unforgettable. A good college atmosphere, good infrastructure, good teachers and especially good friends is helping me to achieve my dreams of becoming a good doctor. The college offers a well-equipped library which is a boon for students. The hospital is providing us a good patient exposure that will help us in our clinical life. The faculties of all the departments are well experienced in their respective fields and they are providing us good quality education. The college not only gives us good education

but also provides us opportunities for developing our talents through extracurricular activities. An annual sports and cultural fest events are conducted every year. The college administration is very much student-friendly and take decisions, which are best for the welfare of students. Even if I'm very much far from my home I'm comfortable in this splendid campus and institution because this institution is led by a bunch of visionaries and is inspiring generations.

Ruben George Mathew
MBBS, 2nd Phase
