Editor's Note...

Dear Readers,

The COVID-19 pandemic has accounted for tens of thousands of deaths and will affect millions more people who will survive. There will be time to mourn the victims and care for the survivors. But it is also time to recognize the heroes who have emerged so far. The most significant challenges of Hospitals are centered on testing and caring for patients with known or suspected COVID-19 and keeping staff safe. The substantial challenge of maintaining, expanding medical facilities with capacity to treat patients with COVID-19 is tremendous task. Anticipated shortages of ventilators, expanding facility and financial concerns are big challenge for hospitals. Let us address challenges unitedly raised by the pandemic for hospitals.

Regards,

Dr. Sumangala Patil

Student Writes...

Right from the day I stepped into this campus, blde has continually managed to astonish me every single day. Within a span of a single year, I have learnt, grown, and been inspired by all that BLDE has to offer. It has been a journey, full of memories which I know I will remember for life.

The first thing that you cannot miss as soon as you enter this home away from home, is the lushful greenery. I felt like my every breath of mine was refreshing and rejuvenating me, providing a perfect ambience for learning.

With its state of the art infrastructure, skilful and knowledgeable faculty, and enthusiastic students, BLDE stands out as an institute. The skills lab, sports complex and other opportunities available to students promote holistic development of its students. The library, an integral part of a student's life, provides great opportunities for in depth learning.

The teachers take up their roles as our gurus as well as our guardians. Guiding us every step of the way, they ensure that we learn in the best way to become great resourceful doctors of this nation. They provide encouragement and all the required support in the learning process. They also help students reach their milestones by encouraging and guiding them through various research projects as well.

Students are provided with the opportunity to discover their talents and nurture them. The institute gives a plethora of options to all its students be it sports meets, literary events, seminars or culture activities. BLDE's students, full of competitive spirit and youthful energy participate and win laurels at various inter college fests as well as the yearly intra college fest, BBeatz. Dancing, singing, instrumentals, fashion show, treasure hunt and many other events conducted during the BBeatz college fest bring out the competitive spirit among all the batches.

All in all, the atmospheric vibrance, impeccable infrastructure, hard working faculty, and most importantly the students of BLDE, all help in creating a perfect biosphere, and ensure that every waking moment in this campus feels balanced, beautiful, peaceful, and perfect..
