To looking forward for the endless rounds,
With each senior highly wise,
Consultants and residents, a never-ending prize;

From making sure my patient has received a high protein diet,
To bathing in their blood, bile, faeces and pus,
From learning that real happiness lies in knowing-
If patient ambulated and has passed faeces or flatus,
And compassion in the words 'PAE clear'.

From learning through the sleepless nights,
To longing to lay hands on live tissue.
From knowing that a Surgeon's job is more than just
A scalpel and a few doses of penicillin,
To growing stronger, hands turning steadier with
every single patient.

From missing home every single day,
To loving this beautiful Campus a bit more than
yesterday.

My journey to become a Surgeon continues...

1st year Surgery PG
